

Say Yes to  
**LOCTITE®**

Vertical application

No drip

Repositionable

Removes excess  
glue

## How to use:

1. Screw down the cap / nozzle onto the tube to puncture the seal (do not squeeze tube). Remove cap carefully. 2. Treat a remote area of the surface or material, to ensure no solvent attack. 3. Apply sufficient LOCTITE® Glue Remover to cover the glue residue or stain. 4. Place a pad of absorbent material/tissue on top of the Remover. If the residue is on fabric, place a tissue on both sides of the material. 5. Leave for several hours or preferably overnight. 6. Remove and discard the absorbent pad/tissue, which will now contain the dissolved glue residue. 7. Wipe the area with a clean cloth. Rinse with water and allow to dry. 8. Repeat the process if required.

**NOTE:** Do not use on painted or varnished surfaces. Not suitable for use on hard plastics i.e., ABS. **CAUTION!** Contains Propylene carbonate. May cause eye irritation. Avoid contact with eyes. Do not swallow. Use with adequate ventilation. **DO NOT TAKE INTERNALLY.** Wash thoroughly after handling. **FIRST AID:** For eye contact, flush with water for 15 minutes, call a physician. For skin contact or if spilled on clothing, flush with large quantities of water. For ingestion do not induce vomiting, call a physician. For skin contact wash thoroughly with soap and water. **KEEP OUT OF THE REACH OF CHILDREN.**

**⚠ WARNING!** Cancer - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).
