

FAQS — POSTCOVERS

What is a post base trim used for?

Post Base Trim is a molding for the bottom of the posts, available in 4" x 4" and 6" x 6" sizes in pine and cedar. Easy to attach with nails, staples, or adhesive.

Is there any care or maintenance required for the cast stone Postcovers or Postcover Caps?

Our postcovers and caps come sealed with a matte finish stone sealer, so no additional sealing is required. Periodic cleaning is recommended as needed to remove surface dirt. Clean with mild soap and water and use a soft brush to remove any dirt buildup. It is always a good idea to test the cleaner in a small, inconspicuous area prior to applying it to the entire postcover.
