

10 Step process for your project

By following these instructions, you'll be guaranteed to have a beautiful and functional deck and stairs in no time.

How to order

1 Choose your color.

White

Charcoal
Bronze

Clay

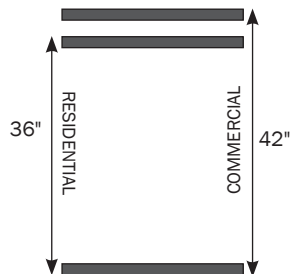

Textured
Black

2 Choose your installed height of your railing.

36" for Residential or
42" for Commercial

(Check with your local
building code for
specific requirements)

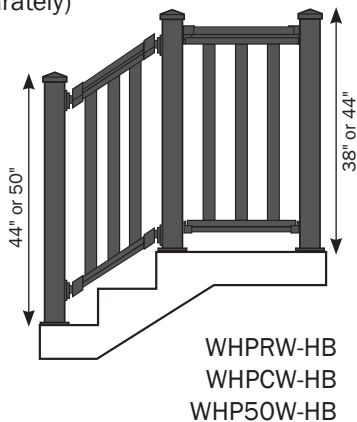

3 Do you need Posts?

(Base covers sold separately)
WHBCHB-LP

4 Choose your post height.

- 38" posts for 36" railing level railing
- 44" posts for 42" railing level railing
- 44" post for 36" stairs run
- 50" post for 42" Stair run

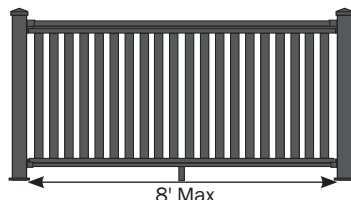

WHPRW-HB
WHPCW-HB
WHP50W-HB

5 Figure your post count.

8 feet max.
between posts

(Check with your local
building code for
specific requirements)

6 Would you like base covers to cover the post fasteners and create a finished look?

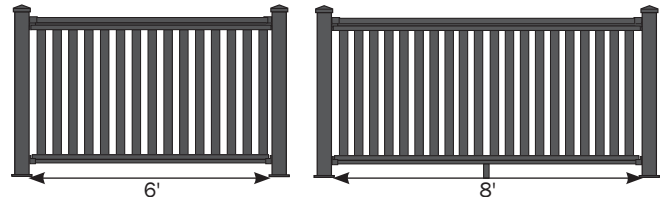

Decorative
or

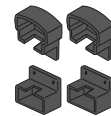

WHBCHB
WHBCHB-LP

7 Do you need 6' or 8' railing sections?

8 Are you cutting a 6' or 8' railing section down to create multiple smaller sections?

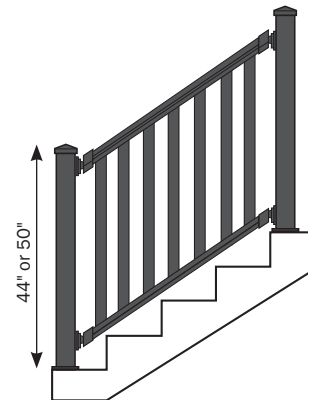

You will need to
order 1 additional
level bracket kit per
smaller section.

WHTBM2HB

9 Do you have stairs?

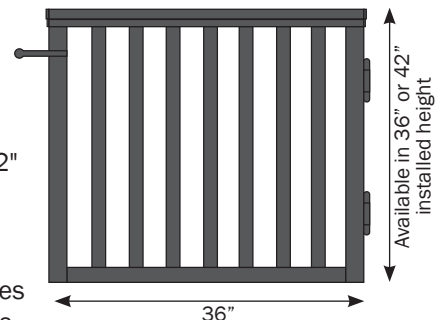

- Use taller posts for stairs and longer railing sections to cover the slope.
- You will need 1 pivot bracket set per stair railing section e.g. WHPMHB

10 Do you need a gate?

Our gates are 36" wide.
We offer both
heights 36" & 42"
installed height.

Compatible with
self-closing hinges
and most latches
