Warnings

1. Children are not allowed to assemble the product. During assembly, please ensure that small parts are kept out of the reach of children, as they may pose a choking hazard if swallowed or inhaled.
2. Keep plastic packing bags out of reach of children to prevent suffocation or other potential dangers.
3. Avoid using sharp objects or corrosive chemicals on the product, as they can cause damage to both the product and the user.

Use Tips

1.Please use in safe voltage range. (100V-120V)
2.Do not strike the mirror with hard or pointed items.
3.WARNING: The installation must be performed by a qualified licensed electrician.

⚠ DANGER: Before installation, make sure the main power is cut off.

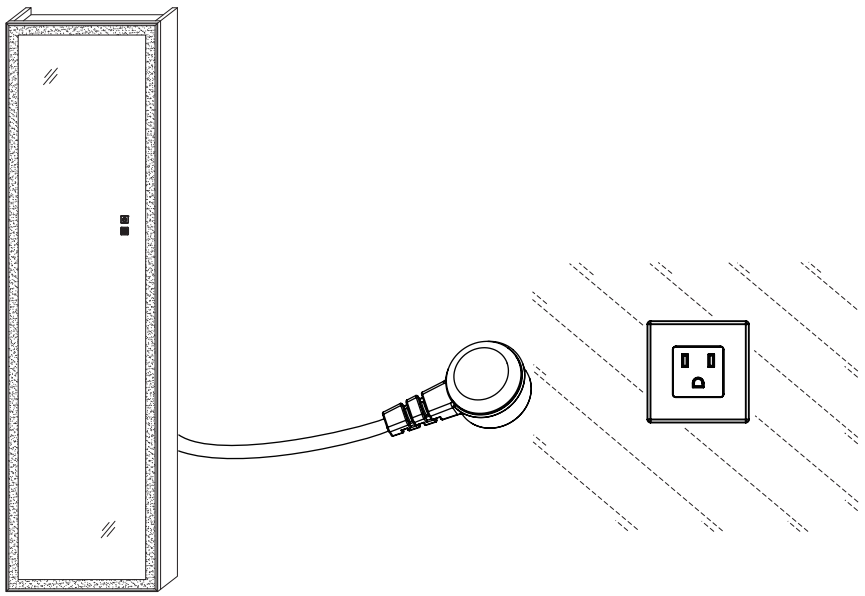

PRE-ASSEMBLY

1. Important Safety Instructions:

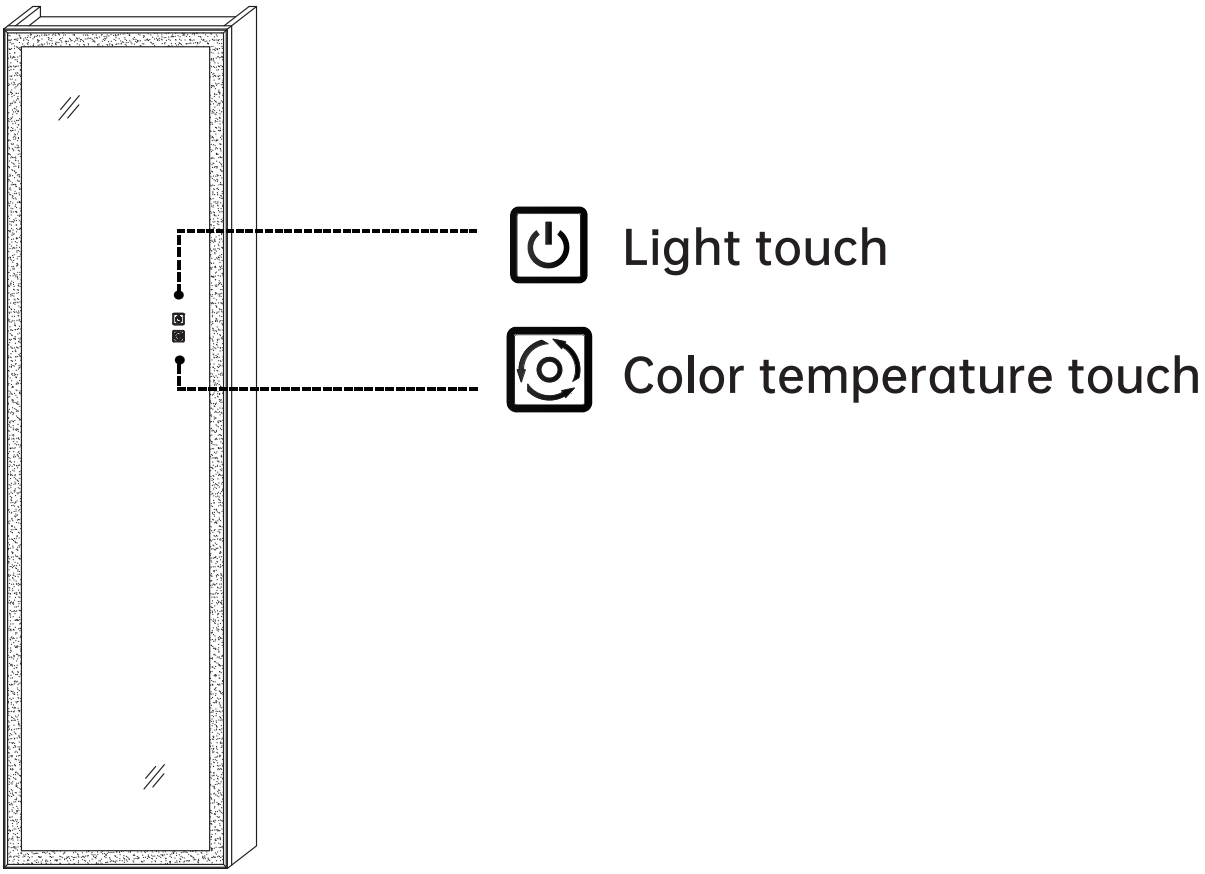

- Please read all instructions carefully before assembling the item.
- Assembly by two or more adults is highly recommended.
- To connect the wires to electrical junction box, a qualified technician or electrician is highly recommended.
- Before installation, component addition or replacement, please make sure the main power has already cut off.
- Ensure the assembly location(solid stone / brick walls) can bear the weight of the complete fitting.
- To prevent injury, the mirror must be installed according to this instruction.

2. Pre-assembly:

- After opening the package, please inspect the accessories according to the packing list in order to ensure the received accessories are complete.
- Ensure the assembled voltage is between 100V and 120V. If the voltage exceeds 120V, please use a transformer.
- You can connect the wires directly to your junction box or a plug.
- Before assemble the mirror on wall, please try to plug and power the product at first, to make sure that the lighting effects and the functions mentioned in section 3 work. If so, you can start to install.

（Please refer to step 6 to step 10, P12-P14.）

*The spacing between each two holes is 4 in (100mm).

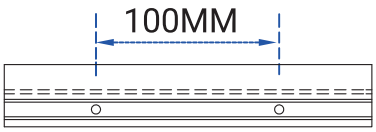

ILLUSTRATIVE GRAPH

"Centered Installation"

MCBF1660/1660R

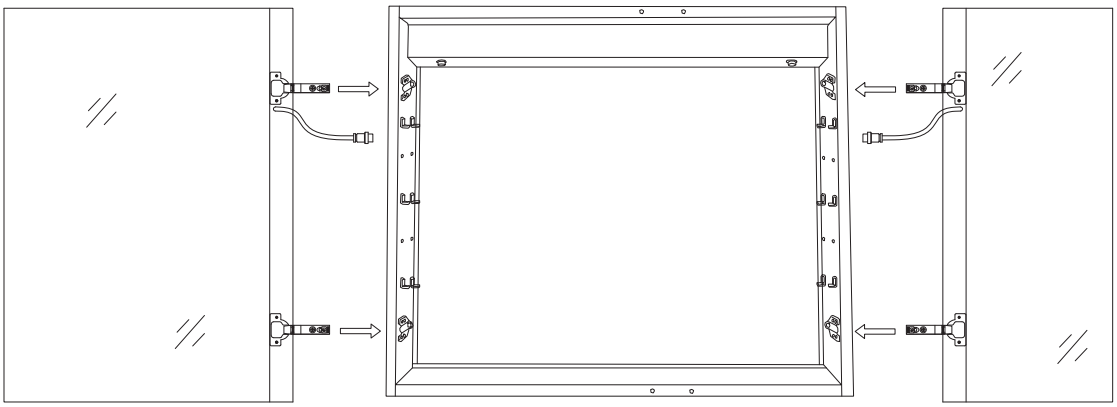

*The spacing between each two holes is 4 in (100mm).

- If walls are stud or dry Wall, or use toggle anchor please consult a licensed contractor and your local hardware store for assistance.
- Using the electronic stud finder and mark stud locations using the pencil.
(Note: It is best to mount the bracket to at least (1) stud, using the illustrative graph shown below for reference. Wood studs are typically located every 16", on center.)

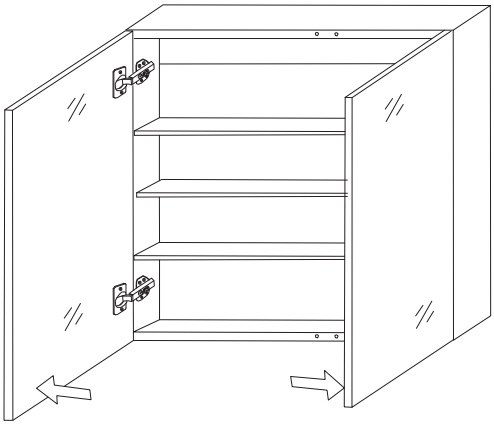

Cabinet Door Installation

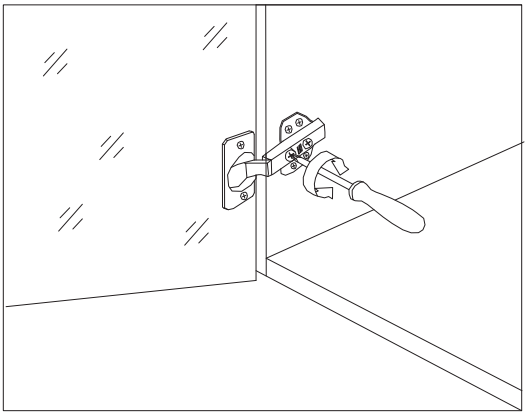

*Taking MCBL3630 as an example.

1.Insert the hinges to the base ,then connect the doors with the cabinet.

2.If necessary, adjust corresponding screws on the hinge to align the doors, ensure that gaps are even and the doors open and close smoothly.

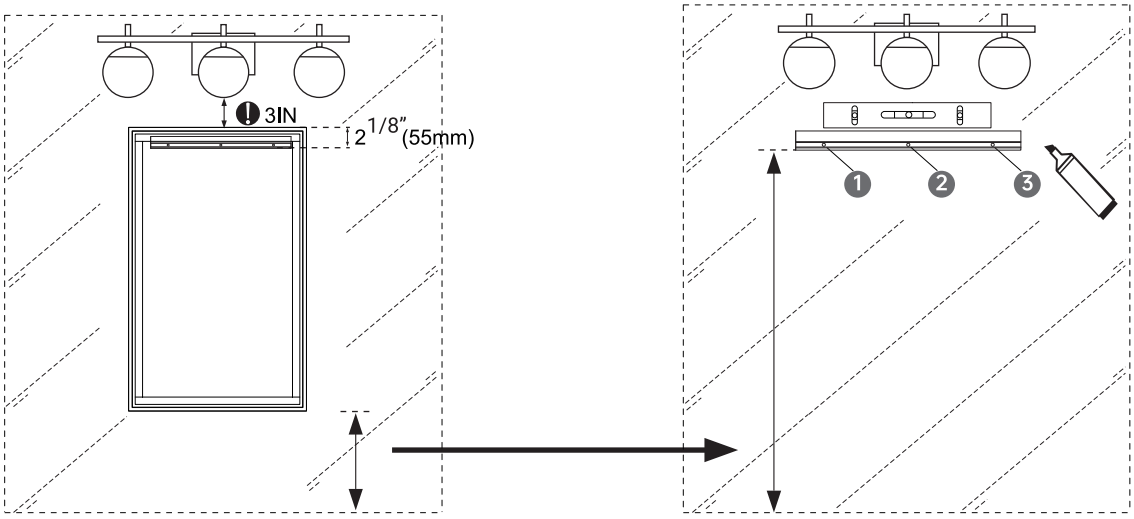

METHOD 1: FOR HANGING WALLS

Method 1.1 : For Solid or Concrete Walls.

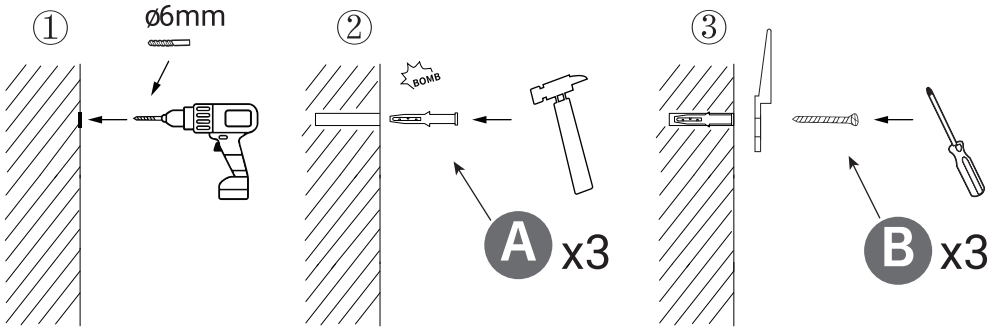

1 ⚠ **ATTENTION**

- The distance between the bottom of bracket to the top of the mirror is $2^{1/8"}$ inch(55mm).
- The recommended installation safety distance is 8 inch(at least) from the ground.The exact mounting height should be determined by your height, with the field of view flush with the center of the mirror.

2

Use a 1/4" (6mm) drill to drill holes at the marked points to a depth of 13/4" (45mm), then apply the wall anchors with a hammer. Mount the lower bracket to the wall with screws.

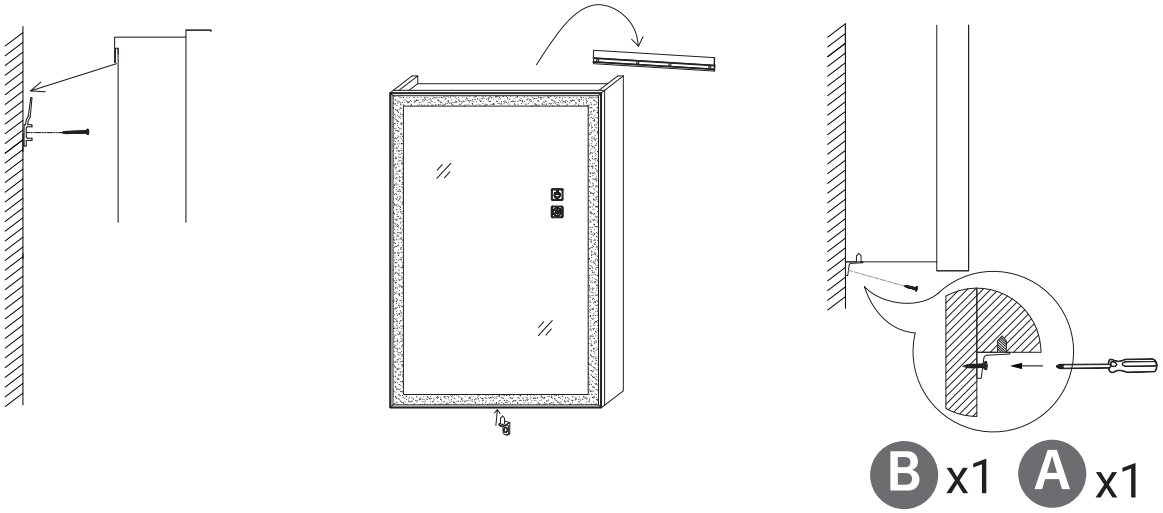

⚠ Note: Please wear goggles and pay attention on your safety.

A		3 PCS
B		3 PCS

3

Lift the medicine cabinet and place it securely in the upper bracket. Holding the cabinet in an upright position, secure the lower bracket in the grooves on the bottom of the cabinet.

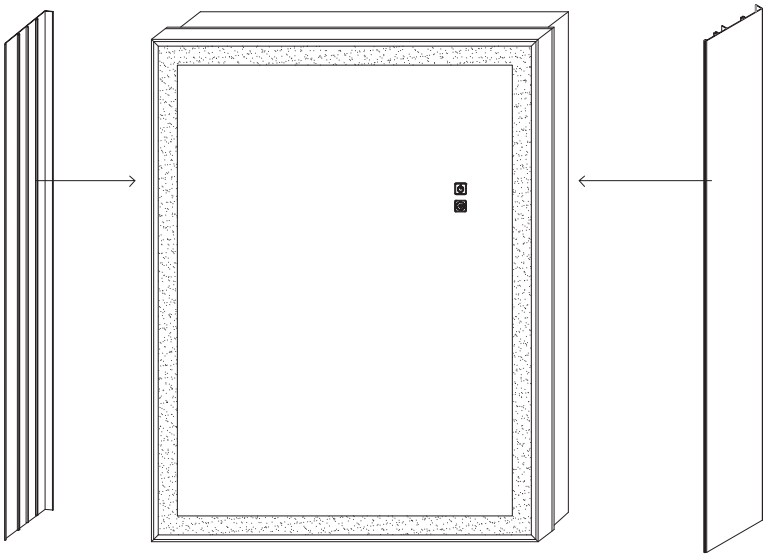

Note: Gently shake the mirror to ensure that the mirror is securely installed.

A 1 PCS

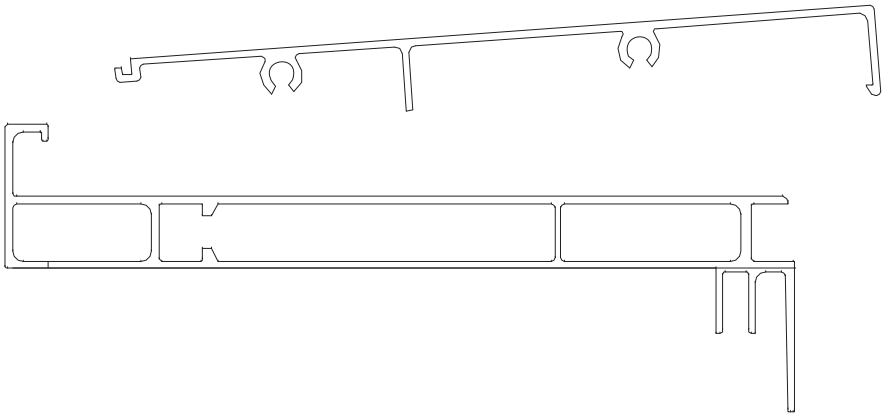

B 1 PCS
