## H-Type Raised Garden Bed

### Installation Guide

---

### Thank You!

You're only a few steps away from your perfect vegetable garden or elevated planter. We hope you enjoy!

### Before You Start

Please read the instructions carefully to familiarize yourself with every detail and step involved. Keep this manual for future reference. Find a suitable space to assemble your new H-Type Raised Garden Bed.

You need at least 109" x 109" (277 x 277cm) for the finished product. A flat and firm area (like a garage floor or flat yard space) is perfect! The only tool you may need is a rubber mallet.

### Important Notes

Small parts are included; we advise you to keep them away from children and pets.

We also suggest having another person help you assemble. Maximum Load capacity: approximately 55 cu. ft. of soil

---

Fix the left joiner corner and left corner post (180mm) on one long board from above, as shown in Image 2.  
Note: The boards need to be placed in the inward "U" shape of the brackets. (Image 2).

---

Sometimes there might be a misalignment of the Corner Posts as shown in Image 8 and Image 9, which may result in difficulty of sliding boards into the brackets. Please adjust them to the right position so that they are parallel to each other, and perpendicular to the ground.
