

Gibraltar Ventilating Access Doors provide ventilation and a secure entry to your crawlspace for maintenance, plumbing and heating repairs as well as storage. Designed for wood frame construction.

1. Frame an opening that is 1/4 inch larger than the nominal door size. 18-1/4 in. x 24-1/4 in.
2. Insert the access door and secure with #10 wood screws through the holes provided on the front flange,

24 in. x 18 in. is the minimum size for a building code approved crawl space access. 36 in. x 24 in. is the minimum access for a crawl space access with mechanical equipment.

These basic installation guidelines are for use with typical or standard applications. It is always recommended to seek advice from a licensed professional, and to check with your local building inspector or building permit office for approvals and possible variations that may apply.
