

Disassembly and Storage

Remove all decorations.

Disassemble the tree in reverse order of assembly.

Suggest to store the tree in its original carton box or in storage bag and keep in a cool dry place.

Caution

To be assembled by or under the supervision of an adult.

Keep plastic bags out of reach of children.

Keep away from fire or hot temperatures. Do not light a candle on or near the tree. Do not leave lighted electric cords unattended.

Do not overload with heavy ornaments and/or too many decorations.

Place the tree on an even surface to ensure stability.

This tree is intended for indoor use only.

Keep this information for future reference.

Made in China

Assembly Instructions

Step 1 Gently lower branches into proper position(Figure 1). Each Branch must be shaped to a natural position by spreading out the left and right tips away from the center tip. Continue to lower branches on upper section(s) in the same manner making sure not to place undue pressure on the brackets.

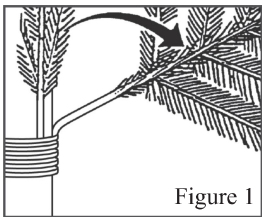

Figure 1

Step 2 Insert the tree top (Part A) into the lower part (Part B) as indicated on Figure 2.

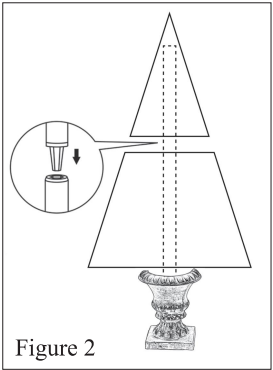

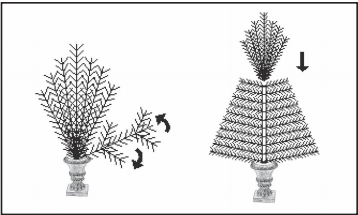

Figure 2

Step 3 Unfold one by one the branches beginning by the lower branches.

Step 4 Make final adjustment and trimming of the tree.

Step 5 Connect the lights to power line (Part C).
