HERE'S HOW TO TAKE CARE OF ME

Chinese Evergreen

LIGHT

I tolerate low light well, but also grow in bright spots. I don't even need natural light to thrive; I can grow with fluorescent lighting too.

WATER

I can be watered regularly, keeping the soil evenly moist, or watered once every few weeks.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

I have variegated leaves that can purify the air and I am super easy to grow.

GROWING TIPS

All Aglaonemas prefer to stay out of direct sunlight and a quick drink whenever the soil feels dry to the touch. Wipe the leaves down once or twice a month to prevent dust build up.
