- * Tools Required for Assembly (included): Allen Key

CARE AND MAINTENANCE

Always use felt pads under all article to prevent discoloration or softening of the lacquer. Plastic and rubber bases on items can discolor product. Wipe up spills immediately and avoid common hazards such as hot dishes, harsh solvents and abrasives. Cleaning should be done with a soft lint free cotton cloth dampened with water or furniture polish. On highly used surfaces we recommend applying a quality paste wax which should be used on a regular basis to provide additional spills. How often you apply the wax depends on how much wear the furniture receives.

Step 1: Turn Ceramic Top A upside down. Be careful as Ceramic can be heavy and fragile.

Step 2: Position Iron Legs B over the bottom of Ceramic top A. Ensure that the attachment points on Legs B align with the corresponding points on Ceramic top A.

Step 3: Using the JCB Bolt (HW1), attach Ceramic top A and Legs B. You'll need an Allen Key for this step. Insert the Allen Key into the screw head and turn clockwise until tight. Be careful not to overtighten as this could damage the Ceramic or the Iron Legs.

Step 4: Once Legs B is securely attached to Ceramic top A, carefully turn the assembly right side up. You may need assistance for this step due to the weight of the Ceramic.
