

The Frosted Valley Collection

The Frosted Valley artificial Christmas tree features a traditional full silhouette, trendy white foliage, and an all-metal hinged branch construction for strength and durability. The tree needles are constructed out of non-allergenic and flame-retardant materials, painted white and lightly frosted in glittery flocking.

The EZ Connect feature on all pre-lit models allows each tier to lock securely into place. Simply unfold out of storage, fluff and decorate! No need to battle with tangled wires and plugs. The multi-colored light models include 8 light modes and a bonus sound-activated feature that enables the tree to react to the beat of your favorite holiday soundtrack.

- Flame-retardant and non-allergenic materials
- Multi-colored light model features sound-activated light show, plus 8 other light functions
- 1-year limited warranty

LIGHTING OPTIONS FOR PRE-LIT MODELS

Eliminate the frustration of untangling your tree's string lights each year. We offer a variety of pre-lit models that includes a system of lights that are already prestrung, evenly distributed and bound to frame. Each option offers a variety of color, bulb types and displays from which to choose.

CLEAR SMART LIGHTING

Includes a system of classic clear bulbs that will remain lit even if one burns out. Each bulb projects a brighter light and further accentuates the tree as well as all ornaments placed around it.

CLEAR LED LIGHTING

Produces a clear timeless display and operates off low voltage power. The LED bulbs are long lasting so you won't have to worry about replacing them each year.

MULTI-COLOR LED LIGHTING

The multi-color LED lights offer the most variety on how your tree lights up. You have the option of choosing one color, multiple colors or the classic clear display to light up your tree.

ACCESSORIES INCLUDED WITH ALL MULTI-COLOR MODELS

All multi-color, pre-lit models include a wireless remote control and convenient foot remote connected to the power cord. Both allow you to control your tree's display by alternating colors and patterns at the touch of a button.

Multi-color trees also feature a sound-activated light show option that enables the tree to react to the beat of your favorite holiday soundtrack. No propriety app required. Simply place the speaker beside the control box and set to music mode with the green light shining. Then simply let the Jingle Bells ring out and enjoy the show!
