# Precision Power Tools

# Planer / Thicknesser

TPT 125

Offering a full 317mm / 12 ½" cutting width, Triton's high performance planer / thicknesser delivers 17,500 cuts per minute for a high quality, consistently smooth finish to the workpiece. Large infeed and outfeed tables provide support for long workpieces and a capacity for timber from 3.2mm / ⅛" up to 150mm / 6" depth. A circuit breaker ensures enhanced electrical safety and the dust chute, which can be mounted on either end of the thicknesser, provides a cleaner, safer, working environment. Precise setting of the cutting depth is easy with the graduated depth crank handle and clear, easy-to-read thickness scale. The 4-post column design provides rigidity and allows the cutter head to be raised and lowered smoothly and accurately for precise results.

**Dust Extraction Chute**
extracts left or right for a cleaner & safer working environment

**4-Post Column Design**
for rigidity & accuracy in setting depth of cut

**Crank Handle**
for easy movement of the roller case

**Easy-to-Read Thickness Scale**
for precise setting of cutting depth

**Circuit Breaker**
for electrical safety

**Easy, accurate setting of cutting depth**
in 1.58mm / 1/16" increments

**Large Infeed & Outfeed Tables**
provide support for longer workpieces

**Cutter Height from 3.2 - 150mm / ⅛" - 6"**
for maximum versatility

**Quick Access Brushes**
allows changing of worn brushes

**Locating Holes**
for secure bench mounting

## Selling Points

- Offers a full 317mm / 12 ½" cutting width
- Delivers 17,500 cuts per minute
- Max depth of cut in single pass: 2.4mm / 3/32"
- Easy, accurate setting of depth of cut in 1.5mm / 1/16" increments
- Large infeed & outfeed tables fully support the workpiece
- Locating holes for bench mounting
- Dust extraction chute extracts to the left or right

## Key Specifications

| | Voltage | |
|---|---|---|
| | 230V 50Hz | 120V 60Hz |
| Power | 1100W | 1 ½hp |
| Cuts Per Min | 17500 | |
| Planing Depth | 3.2 - 150mm | ⅛" - 6" |
