## LIMITED GROWTH & FLOWERING GUARANTEE

---

Garden State Bulb Co. (GSB) products have been grown with the utmost care and are of excellent quality. In order to obtain the desired end result, it is important that the instructions on our site and/or the accompanying (plant) instructions are followed. Given that we work with a natural product; we offer a 1 Year Limited Growth and Flowering Guarantee.

Garden State Bulb's obligation under this Guarantee is limited to troubleshooting, replacing the product, missing pieces or providing a gift certificate at Garden State Bulb's discretion. All products for which a Guarantee claim is made must be received by GSB and accompanied by sufficient proof of purchase (emailed or original physical store receipt, indicating the date of purchase).

This Guarantee does NOT cover improper handling, storing, weathering, failure to follow directions, improper care, improper maintenance, or acts of nature, (such as damage caused by wind, lightning, snow, water, or ice), or damage caused by improper use of the products are not covered by the product warranty. No other guarantee beyond that specifically set forth above is authorized by Garden State Bulb Co.

BLOOM TIME	Summer to Fall
LIGHT	Full Sun
SPACING	12" apart, (1 per sq. ft.)
DEPTH	Plant 6" deep
MATURE HEIGHT	32" to 40" tall
BENEFITS	Great Cut Flowers

## Soil Preparation

**Great gardens start with great soil!**  
Soil preparation is essential for successful gardening.

Healthy soil should have good tilth, nutrient content, and a viable population of beneficial microorganisms. We recommend using natural and organic ingredients to prepare the soil and maintain soil fertility. It is always a good idea to have a soil test to identify your soil type (sandy, loam, silt, clay) and find out your soil pH.

**NOTE:** It is important to store correctly until planting. Store in a cool, dry place with plenty of air circulation. Plant in spring as soon as ground has thawed and soil has warmed to 50°F and is workable. Usually 4-6 weeks after the last frost.

## Dahlia Planting Instructions

- 1 Plant dahlia bulbs in the spring after the ground has thawed and there is no longer danger of frost.
- 2 Choose a location with well-drained soil that receives full sun. Loosen soil prior to planting.
- 3 Dig a hole in loosened soil 6" deep. Place the bulb in the hole with the roots/tubers down and any sprouts facing up. Space each bulb 12" apart.
- 4 Cover with soil and water well so that the soil above the bulbs settles. Keep soil moist during periods of dry weather but do not overwater.

## About Dahlias

Garden State Bulb Anemone Dahlia Mixed Flower Tubers are imported directly from our farms and growers in Holland. This colorful Dahlia collection includes an assortment of single and double-petaled, summer-flowering varieties in a delightful array of yellow, orange, pink, purple and red. This beautiful mixture has a central cushion of smaller petals surrounded by larger petals making it perfect for pollinators to land! They are easy to grow, attractive to pollinators, and good for cut flowers or containers.

# FREQUENTLY ASKED QUESTIONS

---

**Q. When should you plant spring bulbs?**

**A.** Spring planted/summer flowering bulbs and tubers can be planted in the spring when you are certain the ground will no longer freeze in your area.

**Q. Do I need to soak dahlia tubers before planting?**

**A.** . No, dahlia tubers do not need to be soaked before planting.

**Q. Do dahlia tubers multiply?**

**A.** Yes, dahlia tubers can multiply and create up to 10 new tubers in approximately one year for the next growing season.
