

Van Zyverden's **PEONIES BOWL OF BEAUTY**

Peonies are perennials that will live for decades, even generations. Some peonies have been known to thrive for 100 years or more. The blooms are outrageously beautiful, producing lush, glossy, green foliage all summer long and turning purplish or gold in the fall. Peonies are as stately and dignified as any shrub. They are somewhat more expensive to propagate, but well worth their cost. Think of them as an investment in your garden.

Fragrant

*Peonies will live
for decades*

Excellent cut flower

About This Variety: Peony Bowl of Beauty is a single-petaled variety, unlike some of the other famous peonies. The fuchsia pink petals create a bowl-like shape around the pale, lemon yellow center. Stems are erect, and the plant is rather clumping. Good choice for perennial or shrub borders and makes for an excellent cut flower. Herbaceous. A truly striking flower and wise investment in your garden. Some compare it to the performances of Meryl Streep - reliable!

Growing Instructions: In most of the country, the rules for success are simply full sun and well-drained humus-rich soil. Peonies even relish cold winters, because they need chilling for bud formation. In zones 8 and higher, they are harder to grow. They are not fussy, but choose your location wisely so that they can be left alone once planted. Plant away from trees or shrubs, as peonies do not like to compete for food.

Care Tip: The plants require little maintenance, as long as they are planted properly and establish themselves; they don't respond well to transplanting. Unlike most perennials, they thrive on benign neglect, as they do not need to be dug and divided.

Exposure: Full sun to partial shade

Height: Grows 24-36" tall

Spacing: Plant 12-24' apart, 1.5 -2" deep

Hardy in: USDA zones 2-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
