Installing the Light

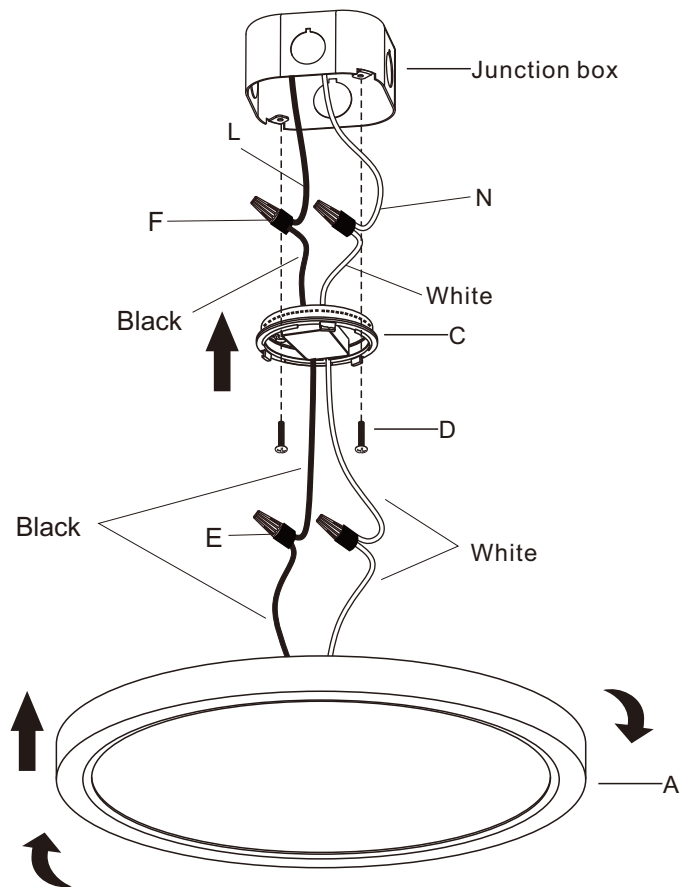

WARNING: To avoid possible electrical shock, turn the electricity off at the main fuse box before wiring. If you feel you do not have enough electrical wiring knowledge or experience, contact a licensed electrician.

- If a night light module(C) is not required,
- Install the mounting bracket(B) onto the junction box using screws(D).
- Connect the wires of the lamp(A) to the wires inside the junction box as shown.
- Insert the wire into the junction box and rotate the lamp(A) to install the lamp onto the mounting bracket(B).

- If a night light module(C) is required.
- Connect the wires of the module(C) and the junction box using wiring nuts(F) as shown.
- Install the module(C) onto the junction box using screws(D),
- Connect the wires of the lamp(A) and the module(C) using wiring nuts(F) as shown.
- Rotate clockwise to install the lamp(A) onto the module(C).

Tips

- For daily cleaning, you can use a damp cloth to wipe the surface without using corrosive chemicals.
- Electrical products must be discarded in an environmentally friendly area.
