

CARE TIPS AND GENERAL INFO FOR:

Mandevilla

EXPOSURE:

PART SUN-FULL SUN

POLLINATOR:

ATTRACTS BEES, BIRDS,
AND BUTTERFLIES

BLOOMTIME:

SUMMER-FIRST FROST
Vibrant blooms cover the
vining Mandevilla in various
colors.

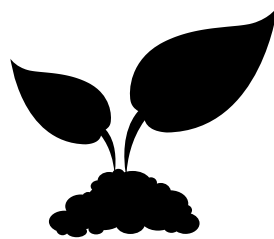

WATERING NEEDS:

REGULAR

Mandevilla does not like to be dry. Keep them well watered in order to extend the flowering timeline.

SOIL TYPE:

RICH, WELL DRAINING SOIL
A trellis or something for the
plants to grow up is also needed
for these plants to be successful.

FERTILIZER:

LIQUID

Twice a month, use a general annual flowering liquid fertilizer to keep the foliage green and the blooms vibrant.
