Ceiling Range (standard)	8-9 ft
Compatible Models	BRANO TW03S wall-mount
Mount Type	Wall-Mount (not island)
Includes	Extension section, mounting hardware
SKU	03SChimney

Installation

1. Confirm your BRANO TW03S hood is mounted and the original two-section chimney (19.65-39 in) is in place.
2. Slide the 15.75 in extension section over the top of the existing chimney until it meets the ceiling.
3. Align the bracket holes and secure with the included mounting hardware. No cutting required.
4. Check that the chimney reaches the ceiling with no visible gap before use.

Important

- Compatible with BRANO TW03S wall-mount range hoods only. Not for island hoods.
- Turn off power to the range hood before installation.
- This is an add-on extension section, not a replacement for the original chimney.
- If unsure about fit or installation, consult a qualified installer.
