The following installation methods will provide better wind resistance performance, extend the product's lifespan, and help you maximize its value, delivering an even better user experience.

1

If the deck you are installing is made of hardwood and has a depth exceeding 40mm, you can use ST8*35mm screws to secure it in place. (This hardware is not included with the product, so you will need to purchase it separately.)

2

The best option is to fix it on a concrete surface. You can use the expansion bolts that are pre-configured with the product to secure it in place.

Notes:

1. When installing the ceiling, fix the screws on the central beam first to prevent the iron sheet from falling and causing injury.
2. Do not fully secure the screw until all screws are properly in position.
3. Two persons are needed when installing Part Y. One should secure Part Y's position from inside the gazebo, while the other inserts screws into Part Y from outside the gazebo.
