## MAINTENANCE AND CLEANING INFORMATION

Abrasive cleansers are safe for Swanstone walls but are not recommended if used in conjunction with a Swanstone or Veritek shower base or bathtub which is designed with high sheen areas to prevent soap scum build-up. Prolonged scrubbing of Swanstone walls with these products could dull the surface of the Swanstone or Veritek base and promote the build-up of soap scum. **Do not** use "leave on" cleaning products such as the Automatic Shower Cleaner. Prolonged contact with harsh chemicals could have an adverse reactive over time and discolor your surfaces. **Do not** use cleaning agents that caution use on acrylic, polyester or plastics.
