## PLEASE NOTE:

Photos and illustrations are for inspiration only.  
Not all product configurations are available in all countries.

Window blinds with a damaged or loose tension device or retractable cord that fails to fully retract pose a strangulation risk to children. To avoid this potential strangulation risk, consider purchasing cordless products or products with inaccessible cords.

# Features

## Summary

Bali® Roller and Solar Shades offer a great selection of light and temperature controlling shades.

### Roller Shades

- Wide variety of colors
- Wide variety of textures and designs
- Improved temperature control

### Solar Shades

- 1% to 10% openness
- Excellent outward visibility
- Glare control

Features	Benefits
EasyTouch Cordless Lift	<ul style="list-style-type: none"> <li>• Precision placement — lower and raise the shade by moving the hem bar exactly where you want it. Ideal system for aligning shade height for multiple shades on the same wall</li> <li>• Light and smooth lift for all shade sizes</li> <li>• Aesthetically beautiful mounting hardware that hides mechanics</li> <li>• Shade is spring-loaded on each end and will self-center between brackets when installed</li> <li>• Streamlined appearance with no chains; ideal for homes with children or pets</li> <li>• Optional contour valance, cassette valance with fabric insert, fascia, flat valance or wood cornice</li> </ul>
Enclosed Loop EasyTouch Dual Lift (Canada ONLY)	<ul style="list-style-type: none"> <li>• Precision placement with two ways to operate the shade: 1) lower and raise shade by moving the hem bar exactly where you want it, or 2) raise the shade by moving the plastic grip toward the top of the window, then hold down the up-arrow button, while simultaneously pulling the grip down. Once you are at the bottom, release the button, reset the grip at the top, and repeat until your shade is at the desired height. To lower the shade, hold the down-arrow button and follow the same instructions.</li> <li>• Light and smooth lift for all shade sizes</li> <li>• Aesthetically beautiful mounting hardware that hides mechanics</li> <li>• Shade is spring-loaded on each end and will self-center between brackets when installed</li> <li>• Beaded chain remains at same length, regardless of chain position</li> <li>• Choose left or right chain or cord location</li> <li>• Optional contour valance, cassette valance with fabric insert, fascia, flat valance or wood cornice</li> </ul>
EasyTouch Dual Lift (U.S. ONLY)	<ul style="list-style-type: none"> <li>• Precision placement with two ways to operate the shade — lower and raise the shade by moving the hem bar exactly where you want it, or lower and raise by pulling on the chain or cord</li> <li>• Light and smooth lift for all shade sizes</li> <li>• Choice of bead chain or fabric cord</li> <li>• One pull of the chain will raise the entire shade</li> <li>• Aesthetically beautiful mounting hardware that hides mechanics</li> <li>• Shade is spring-loaded on each end and will self-center between brackets when installed</li> <li>• Beaded chain (or optional cord) remains at same length, regardless of chain position</li> <li>• Choose from five colors for the plastic chain, or stainless steel chain</li> <li>• Hold down device keeps chain taut for enhanced safety</li> <li>• Choose left or right chain or cord location</li> <li>• Optional contour valance, cassette valance with fabric insert, fascia, flat valance or wood cornice</li> </ul>
Continuous-Loop Lift (U.S. ONLY)	<ul style="list-style-type: none"> <li>• Spring-loaded idle for easy install</li> <li>• Beaded chain and clutch system make raising and lowering shade easy</li> <li>• Four clutch sizes depending on shade size</li> <li>• Beaded chain remains at same length, regardless of shade position</li> <li>• Choose from five colors for the plastic chain or stainless steel chain</li> <li>• Hold down device keeps chain taut for enhanced safety</li> <li>• Choose left or right chain location</li> <li>• Optional contour valance, cassette valance with fabric insert, fascia, flat valance or wood cornice</li> </ul>
Enclosed Loop Lift (Canada ONLY)	<ul style="list-style-type: none"> <li>• Spring-loaded idle for easy install</li> <li>• Enclosed Loop Lift features a cord cover and sliding handle to operate the chain loop easily and safely</li> <li>• Four clutch sizes depending on shade size</li> <li>• Beaded chain remains at same length, regardless of shade position</li> <li>• Choose left or right chain location</li> <li>• Optional contour valance, cassette valance with fabric insert, fascia, flat valance or wood cornice</li> </ul>

## Summary

Bali® Roller and Solar Shades offer a great selection of light and temperature controlling shades.

### Roller Shades

- Wide variety of colors
- Wide variety of textures
- Improved temperature control

### Solar Shades

- 1% to 10% openness
- Excellent outward visibility
- Glare control

Features	Benefits
Cordless Lift	<ul style="list-style-type: none"> <li>• Streamlined appearance with no chains; ideal for homes with children or pets</li> <li>• Shade raises and lowers smoothly and easily due to a unique dual braking system</li> <li>• Tension can be manually adjusted so shade always raises at desired speed</li> <li>• Color coordinated tassels facilitate easy operation and keep fabrics clean (wood tassels in Natural, Walnut, and Golden Oak are optional)</li> <li>• Optional clear hem grip available (not available with scallop option)</li> <li>• Optional contour valance, cassette valance, flat valance or wood cornice</li> </ul>
Smart Pull Lift	<ul style="list-style-type: none"> <li>• Convenient easy glide lift system with a wand</li> <li>• Shade is lowered automatically with a single pull of the wand</li> <li>• Shade is raised to the desired placement with simple pull of the wand</li> <li>• Optional contour valance, cassette valance, flat valance or wood cornice</li> </ul>
Motorized Lift	<ul style="list-style-type: none"> <li>• Window treatments can be operated from virtually anywhere in the home</li> <li>• Provides easy operation of hard-to-reach or larger windows</li> <li>• Operate multiple window treatments simultaneously or individually</li> </ul>
Dual Shade (U.S. ONLY) or Enclosed Loop Dual Shade (Canada ONLY)	<ul style="list-style-type: none"> <li>• Two shades are combined onto one bracket for complete privacy and light control</li> <li>• Each shade may be configured with roller and/or solar fabrics</li> <li>• Maximizes view to the outside with solar or sheer fabrics</li> <li>• Maximizes privacy with roller fabrics</li> <li>• Improves energy efficiency</li> <li>• Optional large cassette</li> </ul>
Options	<ul style="list-style-type: none"> <li>• Each operating system offers multiple valance and cornice options (surcharge applies)</li> <li>• Turning fabric width for height accommodates larger windows; available in select fabrics</li> <li>• Reverse roll: fabric rolls over the front of tube; standard: material rolls over the back</li> <li>• Hem bar: fabric-wrapped</li> <li>• Projection brackets for Smart Pull Lift and cordless lift (no charge)</li> <li>• Hold down brackets (no charge)</li> <li>• Bay or corner shade</li> <li>• Motorized lift</li> <li>• Fascia available in 3" and 4" heights</li> </ul>
Total Room Coordination	<ul style="list-style-type: none"> <li>• Total room fabric coordination of many fabrics for roller, solar, sliding panels, verticals, and pleated shades</li> <li>• Coordinate a room by using a single fabric for a mixture of window types and sliding doors</li> </ul>
Scallop, Gimp, and Trims	<ul style="list-style-type: none"> <li>• Create a customized look for roller shades</li> </ul>
Warranty	<ul style="list-style-type: none"> <li>• Limited lifetime warranty; five-year warranty on motorization components</li> </ul>

# Features

## Roller Shade Fabrics

- Offer a solution for light control (sheer to blackout fabrics)
- Any room or decorating style
- Block damaging UV rays
- Coordinate with other product lines (vertical blinds, pleated shades, and sliding panels)

## Fabric Styles and Information: Roller Shade Fabrics

Style Name	Opacity Level	Fabric Composition	Fabric Width (inches)	Oeko-Tex® Certified	Can be Turned Width for Height	Color to Street Side	Color Number

Viva	Sheer	100% Polyester	106	•		Same front and back	All colors

Basics material is FR Rated. Smart Pull is not available with Plush fabric.

# Features

## Light Control and Privacy: Roller Shade Fabrics

**Sheer\*:** Allows the most amount of light into the room for a minimum amount of privacy and a view to the outside. Objects in the room can be seen quite clearly through shades.

**Privacy Level:** Minimal

**Light Filtering\*:** Allows light to gently filter through and provides privacy. Images and shapes may be seen through these shades, but details are not visible. Deep fabric colors provide moderate light control, while light colors provide lower light control.

**Privacy Level:** Moderate

**Room Darkening\*:** Allows some light to filter into the room and provides privacy. Objects in a lit room seen through these shades appear as vague shapes. Deep fabric colors darken a room; light colors filter and diffuse bright sunlight.

**Privacy Level:** Complete

**Blackout:** Prohibits light from shining through and provides maximum privacy. Prevents shadows and silhouettes from showing through the fabric. All fabric colors provide maximum light control.

**Privacy Level:** Complete

**Light Gaps:** For optimal light and glare control, outside mount is recommended, or you may add a secondary soft window treatment (drapery or curtain) to hide the light gap on an inside mount. (Refer to light gap chart in this section.)

**Privacy Level:** Moderate

\*These fabrics are translucent and their colors may be influenced by changing light conditions. Colors may appear to vary depending upon the time of day and type of lighting, as well as whether the shade is partially or fully lowered.

**NOTE:** Select roller weaves may have “pinpricks” of light showing through.

## Features

### Solar and Roller Shades

#### Maintain an Outward View

- Filter and diffuse light while maintaining an outward view
- In general, the higher the openness factor and darker the fabric, the clearer the view

#### Manage Glare

- Minimize glare on televisions and home office computers
- The darker the fabric color, the better the glare control and the better the view to the outside

#### Block Damaging UV Rays

- The amount of UV ray blockage is the inverse of a fabric's openness factor (e.g., a fabric with 10% openness blocks 90% of UV rays)
- Protect your furniture, carpets, artwork, etc., from fading due to harmful UV rays

#### Reduce the Temperature

- Fabrics reduce heat transmittance, keeping rooms cooler and increasing the comfort level in the home
- The lighter the fabric color, the better the temperature control

**NOTE:** Solar shades do not offer nighttime privacy; lighted interiors allow inward visibility. If complete privacy is desired, a dual shade or secondary treatment is necessary.

#### Solar Optical Properties

When solar radiation reaches the shading fabric it is either reflected, absorbed, or transmitted. The sum of these values equals 100% of the solar energy hitting the fabric.

### Fabric Certifications

#### GREENGUARD Indoor Air Quality

**Certified® Fabrics:** Many Bali® fabrics have been certified by GREENGUARD Environmental Institute (GEI) to be low chemical- and particle-emitting fabrics, which provides a healthier indoor air quality. The process used for certification complies with established indoor air quality standards and is performed by a third party lab. Please see [baliblinds.com](http://baliblinds.com) for more information.

**Oeko-Tex® Standard 100** certifies that our fabrics are free of halogen, lead, formaldehyde, allergenic dyes, pesticides, phenols, and heavy metals, and meets all VOC content limits.

GREENGUARD Indoor Air Quality Certified is a registered trademark of the GREENGUARD Environmental Institute.

Oeko-Tex is a registered trademark of the Oeko-Tex Association.

**Cradle to Cradle Certified Design:** Cradle to Cradle certification aims to transform all industries through ecologically intelligent design. That means the certified textiles are globally recognized to be safer and more sustainable.

Smart Pull is not available with the following fabrics: Bristol, Muse, Steppe, Santina

## Features

### Fabric Recommendations

Order all shades for the same room at the same time to ensure color consistency and minimize dye lot variation.

When displaying multiple shades in the same room, we recommend all shades be ordered with the same fabric orientation for a consistent look.

### Fabric Disclaimers

Due to the nature of the weaving process, some imperfections in the weave are normal.

**NOTE:** Select roller weaves may have “pinpricks” of light showing through.

Roll direction cannot be reversed after a shade is ordered.

Fabric appearance can vary based on changing light conditions in the room.

### Fabric Width

The fabric width is narrower than the finished shade width of the tube and its components.

### Light Gap

Control Type	Light Gap per Side (inches)
EasyTouch Cordless Lift	$\frac{3}{8}$
EasyTouch Cordless Lift with Cassette	$\frac{1}{2}$
EasyTouch Cordless Lift with Contour Valance	$\frac{3}{8}$
EasyTouch Cordless Lift with Fascia	$\frac{3}{8}$
Easy Touch Cordless Lift with Flat Valance	$\frac{3}{8}$
EasyTouch Dual Lift or Enclosed Loop EasyTouch Dual Lift	$\frac{1}{2}$
EasyTouch Dual Lift or Enclosed Loop EasyTouch Dual Lift with Cassette	$\frac{1}{2}$
EasyTouch Dual Lift or Enclosed Loop EasyTouch Dual Lift with Contour Valance	$\frac{1}{2}$
EasyTouch Dual Lift or Enclosed Loop EasyTouch Dual Lift with Fascia	$\frac{1}{2}$
EasyTouch Dual Lift or Enclosed Loop EasyTouch Dual Lift with Flat Valance	$\frac{1}{2}$
Enclosed Loop or Continuous-Loop Lift	$\frac{9}{16}$ to $\frac{7}{8}$
Enclosed Loop or Continuous-Loop Lift with Cassette	$\frac{9}{16}$ to $1\frac{1}{16}$
Enclosed Loop or Continuous-Loop Lift with Contour Valance	$\frac{9}{16}$ to $\frac{7}{8}$
Enclosed Loop or Continuous-Loop Lift with Fascia	$\frac{9}{16}$ to $\frac{7}{8}$
Enclosed Loop or Continuous-Loop Lift with Flat Valance	$\frac{9}{16}$ to $\frac{7}{8}$
Dual Shade or Enclosed Loop Dual Shade	$\frac{9}{16}$ to $1\frac{1}{16}$
Dual Shade or Enclosed Loop Dual Shade with Cassette	$\frac{9}{16}$ to $\frac{7}{8}$
Cordless Lift	$\frac{3}{8}$ to $\frac{3}{4}$
Cordless Lift with Cassette	$\frac{7}{16}$ to $1\frac{3}{16}$
Cordless Lift with Contour Valance	$\frac{3}{8}$ to $\frac{3}{4}$
Cordless Lift with Flat Valance	$\frac{3}{8}$ to $\frac{3}{4}$
Smart Pull Lift	$\frac{9}{16}$ to $1\frac{5}{16}$
Smart Pull Lift with Cassette	$\frac{9}{16}$ to 1
Smart Pull Lift with Contour Valance	$\frac{9}{16}$ to $1\frac{5}{16}$
Smart Pull Lift with Flat Valance	$\frac{9}{16}$ to $1\frac{5}{16}$

### Large Window Sizing

Fabrics can be turned 90° clockwise (width for height) to accommodate wider windows. Fabrics turned width for height (referred to as railroaded) may curl along the edge. Springs Window Fashions performs extensive testing to ensure our customers receive high quality shades. On extremely wide shades, a slight V shape may appear in the center of the shade. This occurs due to the weight of the fabric and should be considered a normal characteristic.

### Pattern Alignment

Exact alignment of the fabric pattern across side-by-side shades is not possible. Vertical alignment of the shade fabric with cassettes is not possible. Fabrics with large repeat patterns are not centered on the shade.

### Cleaning and Care Information

**Roller shade fabrics** are virtually maintenance free. If the shade is dusty, simply vacuum over it using an upholstery attachment. A dusting cloth can also be used to gently remove dust. Shades may also be gently wiped with a clean damp cloth. Allow the shade to dry completely before raising. Do **NOT** completely immerse.

**Solar shade fabrics** are virtually maintenance free. Only periodic vacuuming and an occasional cleaning using a mild detergent, soft brushing, and thorough rinsing is required. Allow the shade to dry completely before raising. Do **NOT** completely immerse.

# Size Considerations

## Maximum Shade Size

### Cordless Lift Shade Maximum Size

If Shade Width Is at Least (inches)	Maximum Height of Shade (inches)
13 but less than or equal to 19	60
19½ but less than or equal to 24	78
24½ but less than or equal to 31	98
For shades greater than 31", see size considerations charts	

Follow these easy steps to determine maximum shade size and valance size from the maximum shade size tables:

1. Determine your fabric style, shade size, control type, and cassette valance (or no cassette valance) requirement.
2. Find the fabric in the first column.
3. Follow the fabric row to the appropriate control type section (EasyTouch Lift, Enclosed Loop Lift, Continuous-Loop Lift, Dual Shade, Enclosed Loop Dual Shade, Motorized Lift, Cordless Lift, or Smart Pull Lift).
4. Determine if your shade size is within the normal fabric orientation size range.
5. Identify the appropriate size valance for your shade size.
6. If your shade size is larger than either the maximum width or height range, your fabric may be able to be turned width for height for larger shades. Use the fabric turned width for height tables to determine this maximum size.

**EXAMPLE 1:** Determine the maximum allowable shade size and cassette valance for normal orientation shades. The example shade is 72" x 100", Gazebo BO fabric, cordless lift, with cassette valance.

1. Go to the cordless lift section.
2. Find Gazebo in the first column.
3. The maximum width and maximum height available for this configuration is 78" x 120".

**NOTE:** Both width and height must be less than the maximum width and height segment to fit the normal shade orientation.

4. Follow this segment to the top of the table. This segment is within the medium cassette valance size, indicating that the smallest segment cassette valance size available for this shade is a medium size cassette valance.

### Smart Pull Lift Shade Maximum Size

If Shade Width Is at Least (inches)	Maximum Height of Shade (inches)
13 but less than or equal to 25	78
25½ but less than or equal to 32	98
For shades greater than 32", see size considerations charts	

**EXAMPLE 2:** Determine the maximum allowable shade size and cassette valance for an Enclosed Loop shade. The example shade is 79" x 80", Cascade fabric, Enclosed Loop with a large cassette valance. First, determine if the shade size is available with the requested fabric and control type.

1. Go to the Enclosed Loop section.
2. Find Cascade in the first column.
3. The maximum width and maximum height available for this configuration is 108" x 144". The 79" x 80" size does not exceed the Enclosed Loop segment.
4. The 79" x 80" size does not exceed either the medium or large cassette segments.

### Dual Shades or Enclosed Loop Dual Shades

The maximum size for dual shades is found using the dual shade column. Because two shades must fit into a single cassette valance, the dual shade requires the large cassette valance. Small and medium cassette valances are not available for dual shades.

**Recommendation:** For a consistent look in a single room, we recommend the same size cassette valance be used for every shade. Use the largest shade to determine the smallest available cassette valance size for that room. For example, if the largest shade in the room requires a medium cassette valance, then it is recommended all shades in the room use a medium cassette valance. The cassette valance size can be specified during ordering.

# EasyTouch Cordless Lift, EasyTouch Dual Lift, and Enclosed Loop EasyTouch Dual Lift Size Considerations

- In an effort to maximize product offerings, the following tables provide the maximum shade size available for each fabric and valance combination as determined by the fabric width
- Valance types available for EasyTouch Cordless Lift, EasyTouch Dual Lift, and Enclosed Loop EasyTouch Dual Lift are shown in the chart key at the bottom right corner of each page in this section
- Some fabrics may be turned width for height (railroaded) to accommodate wide windows—See table for availability
- Shades ordered greater than a 1:6 ratio (W:H) risk telescoping

**Minimum Shade Width: Varies by fabric**

**Minimum Shade Height: 13"**

Due to continuous manufacturing improvements, minimums and maximums are subject to change.  
Please call customer service for up-to-date size considerations.

## Size Considerations

- This table provides the maximum shade size available by fabric, control type,  
and valance style
- Scallops decrease the maximum height by 6¾" on roller fabrics only
- If your shade size is larger than the maximum width, your fabric may be able to be turned width for height for larger shades
- Cassette valance, contour valance and flat valance are options for Enclosed Loop Lift, Continuous-Loop Lift, cordless lift, and Smart Pull Lift
- Use the fabric turned width for height table to determine this maximum size

### Minimum Shade Size

For all fabrics and lift options:

**Minimum shade width and height: 13"**

### Enclosed Loop Lift or Continuous-Loop Lift: Maximum Shade Size

Valance Type	Normal Fabric Orientation												Fabric Turned Width for Height (Railroaded)

Due to continuous manufacturing improvements, minimums and maximums are subject to change. Please call customer service for up-to-date size considerations.  
NO RR signifies a fabric that cannot be rotated 90 degrees in order to add to the maximum width for a shade.

Due to continuous manufacturing improvements, minimums and maximums are subject to change. Please call customer service for up-to-date size considerations.  
NO RR signifies a fabric that cannot be rotated 90 degrees in order to add to the maximum width for a shade.

## Size Considerations

- This table provides the maximum shade size available by fabric, control type, and valance style
- Scallops decrease the maximum height by 6¾" on roller fabrics only
- Only the large cassette valance is available for the dual shade
- Fabric turned width for height (railroaded) may curl along its edge; this is not a defect in the product
- Small and medium cassette valances are not available

Dual Shades or Enclosed Loop Dual Shades: Maximum Shade Size

\*Largest possible measurement given will vary per fabric and window dimensions.

## Size Considerations

### EasyTouch Cordless Lift, EasyTouch Dual Lift, and Enclosed Loop EasyTouch Dual Lift: Mounting Depth Illustrations

The following diagrams illustrate the mounting depth requirements for shades mounted inside window casements.

\*Largest possible measurement given will vary per fabric and window dimensions.

### Control Lengths for Enclosed Loop Lift Cover

Finished Shade Height (inches)	Enclosed Loop Cover Length (inches)
up to 36	18
36 1/2 - 48	24
48 1/2 - 60	36
61 1/2 - 72	48
72 1/2 - 84	60

Finished Shade Height (inches)	Enclosed Loop Cover Length (inches)
84 1/2 - 96	72
96 1/2 - 108	84
108 1/2 - 120	96
120 1/2 - 144	108

**NOTE:** Enclosed Loop Cover in relation to the final shade length will vary between +/- 3 to 6 in. based on size of shade.

# Options

## Shade Options (for surcharges and pricing refer to price charts)

The following is a list of options for roller and solar shades. Options available with select styles and colors. Limitations are based on shade width and height. See detailed descriptions on the following pages.

### Control Type Options:

#### For surcharge, see price charts

- Continuous-Loop Lift (U.S. ONLY)
- Enclosed Loop Lift (Canada ONLY)
- Enclosed Loop EasyTouch Dual Lift (Canada ONLY)
- EasyTouch Cordless Lift
- EasyTouch Dual Lift (U.S. ONLY)
- Cordless lift
- Smart Pull Lift
  - Wand control
- Motorized lift (see motorization price charts)

### Shade Options—No Charge

- Chain color (Black, Brown, Gray, Stainless Steel, Vanilla, and White)
- Chain guide color (Black, Brown, Gray, Vanilla, and White)
- EasyTouch Dual Lift: Cord Loop or bead chain
  - Cord loop colors (Bamboo, Coffee, Smokey Gray, Tender Taupe, Tuscany, White)
- Enclosed Loop EasyTouch Dual Lift: stainless steel chain
- Bay and corner windows
- Chain and Enclosed Loop Cover length depend on finished shade height. Customer can request a longer Enclosed Loop Cover or chain at time of order
- Chain location
- Fabric turned 90° (width for height)
- Hold down brackets
- Projection brackets 3¼" and 4"
- Reverse roll
- Returns for contour valance
- Returns for flat valance
- Reverse fabric
- Cassette valance inserts (different than shade)
- Cordless lift: cord tassels or clear hem grip

### Shade Options—Surcharge

- Contour valance
- Cassette valance
- Dual Shade (U.S. ONLY) or Enclosed Loop Dual Shade (Canada ONLY)
- Fascia
- Flat valance
- Scallop and gimp (not available with all control types)
- Bead trim
- Wood cornice and valance (see cornice and valance price charts)

## Reverse Roll

### • No charge

- Standard roll is where fabric rolls over the tube to the back
- Reverse roll is where the fabric rolls over the tube to the front
- Reverse roll not available with cassette valance, fascia valance, flat valance or contour valance
- Roll direction cannot be changed after shade is manufactured

**NOTE:** For optimal privacy and light control, standard roll should be used.

## Projection Brackets

### • No charge

- Available with EasyTouch Dual Lift, Enclosed Loop EasyTouch Dual Lift, EasyTouch Cordless Lift, Enclosed Loop Lift, Continuous-Loop Lift, and motorized lift with cassette on outside mounts
- Available with cordless lift and Smart Pull Lift on outside mounts
- Two sizes: 3¼" and 4"

## Options

### EasyTouch Cordless Lift

- **For surcharge, see price charts**
- Proprietary lift system with precision placement - raise and lower the shade by moving the hem bar exactly where you want it
- Light and smooth lift for all shade sizes
- Aesthetically beautiful mounting hardware that hides mechanicals
- Shade mounting is spring loaded on each end and will self-center between brackets when installed
- Pull force can be manually adjusted
- A safer alternative for homes with children or pets
- Clear hem grip included
- Not available with scallop
- Optional contour valance, cassette valance with fabric insert, fascia, flat valance or wood cornice
- Outside mount is recommended for maximum light control

Inside Mount Light Gap  
(Refer to light gap chart.)

### Enclosed Loop EasyTouch Dual Lift (Canada ONLY)

- **For surcharge, see price charts**
- Precision placement with two ways to operate the shade: 1) lower and raise shade by moving the hem bar exactly where you want it, or 2) raise the shade by moving the plastic grip toward the top of the window, then hold down the up-arrow button, while simultaneously pulling the grip down. Once you are at the bottom, release the button, reset the grip at the top, and repeat until your shade is at the desired height. To lower the shade, hold the down-arrow button and follow the same instructions
- Light and smooth lift for all shade sizes
- Aesthetically beautiful mounting hardware that hides mechanicals
- Self-centering for easy install
- Clear hem grip included
- Not available with scallop
- Chain and Enclosed Loop Cover length depend on finished shade height. Customer can request a longer Enclosed Loop Cover at time of order
- Enclosed Loop Cover provides the ability to keep the cord out of the reach of children and pets to enhance safety. Enclosed Loop Cover colors are selectable (white, cream, gray)
- Bead chain remains at same length, regardless of shade position
- Choose left or right cord location
- Optional contour valance, cassette valance with fabric insert, fascia, flat valance or wood cornice
- Outside mount is recommended for maximum light control

Inside Mount Light Gap  
(Refer to light gap chart.)

## Options

### EasyTouch Dual Lift (U.S. ONLY)

Inside Mount Light Gap  
(Refer to light gap chart.)

- **For surcharge, see price charts**
- Proprietary lift system with precision placement with two ways to operate the shade - raise and lower the shade by moving the hem bar exactly where you want it, or raise and lower using the cord.
- Light and smooth lift for all shade sizes
- Choice of bead chain or fabric cord
- One pull of the cord will raise the entire shade
- Aesthetically beautiful mounting hardware that hides mechanicals
- Self-centering for easy install
- Clear hem grip included
- Not available with scallop
- Bead chain length is approximately  $\frac{7}{8}$  of the length of shade; customer can request a longer chain length at time of order
- Bead chain remains at same length, regardless of shade position
- Color coordinated plastic bead chains are available (colors include: Black, Brown, Gray, Vanilla, and White)
- Color coordinated cords are available (colors include: Bamboo, Coffee, Smokey Gray, Tender Taupe, Tuscany, and White)
- Metal bead chains available (colors include: Brushed Nickel, Oil Rubbed Bronze, Brushed Bronze, and Stainless Steel)
- Safety cord guide provides the ability to keep the cord out of the reach of children and pets to enhance safety
- Choose left or right cord location
- Optional contour valance, cassette valance with fabric insert, fascia, flat valance or wood cornice
- Outside mount is recommended for maximum light control

**NOTE:** Cord guide must be installed to operate shade.

When operating the shade in cordless mode, using your fingers to lift it too quickly will cause the shade to billow. This is due to the added tension that has been added to the chain. To raise the shade in cordless mode, we recommend you grasp the clear plastic grip in the same way you would to lower the shade, then lift slowly, with care.

### Cordless Lift

Inside Mount Light Gap  
(Refer to light gap chart.)

- **For surcharge, see price charts**
- Shade raises on its own after you pull down slightly and release the handle. To lower, pull the handle down to your desired position.
- Sleek look with no chains
- A safer alternative for homes with children or pets
- Shade raises and lowers smoothly and easily due to a unique dual speed braking system (shades less than 24" do not have a dual brake)
- Tension can be manually adjusted so shade always raises at desired speed
- Standard cord and tassels are color coordinated to fabric
- Optional wood tassels
  - Golden Oak . . . . . 31
  - Natural . . . . . 17
  - Walnut . . . . . 10
- Optional clear hem grip (not available with scallop)
- Optional contour valance, cassette valance with fabric insert, flat valance, or wood cornice
- Outside mount is recommended for maximum light control
- Cordless lift is not available with Muse 1%

## Options

### Enclosed Loop Lift (Canada ONLY)

Inside Mount Light Gap  
(Refer to light gap chart.)

- **No charge**
- Spring idle end standard; stationary idle end available
- Beaded chain and clutch system makes raising and lowering shade easy
- Chain and Enclosed Loop Cover length depend on finished shade height. Customer can request a longer Enclosed Loop Cover at time of order
- Four clutch sizes depending on shade size
- Beaded chain remains at same length, regardless of shade position
  - Raise the shade by moving the plastic grip toward the top of the window, then hold down the up-arrow button, while simultaneously pulling the grip down. Once you are at the bottom, release the button, reset the grip at the top, and repeat until your shade is at the desired height. To lower the shade, hold the down-arrow button and follow the same instructions
- Enclosed Loop Cover colors are selectable (white, cream, gray)
- Choose left or right chain location
- Optional contour valance, cassette valance with fabric insert, fascia, flat valance, or wood cornice
- Outside mount is recommended for maximum light control

### Continuous-Loop Lift (U.S. ONLY)

Inside Mount Light Gap  
(Refer to light gap chart.)

- **No charge**
- Spring idle end standard; stationary idle end available
- Beaded chain and clutch system makes raising and lowering shade easy
- Bead chain length is approximately  $\frac{7}{8}$  of the length of shade; customer can request a longer chain length at time of order
- Four clutch sizes depending on shade size
- Beaded chain remains at same length, regardless of shade position
- Color coordinated plastic bead chains and stainless steel bead chains are available (colors include: Black, Brown, Gray, Stainless Steel, Vanilla, and White)
- Safety chain guide provides the ability to keep the chain out of the reach of children and pets to enhance safety  
**NOTE:** Chain guide must be installed to operate shade.
- Choose left or right chain location
- Optional contour valance, cassette valance with fabric insert, fascia, flat valance, or wood cornice
- Outside mount is recommended for maximum light control

## Options

### Smart Pull Lift

- **For surcharge, see price charts**
- Patented Smart Pull Lift
- Wand control available
- Great for hard to reach areas (e.g., behind kitchen sink)
- To raise the shade, pull the wand gently
- To lower the shade, pull the wand with a small quick tug
- The shade lowers easily and automatically; to stop the shade while it is lowering, gently pull the wand again
- Cassette valances are available as an option
- Hold down brackets are available
- Outside mount is recommended for maximum light control
- Optional contour valance, cassette valance with fabric insert, flat valance or wood cornice
- Smart Pull is not available with the following fabrics: Bristol, Muse, Plush, Santana, and Steppe

Inside Mount Light Gap Varies by Side  
(Refer to light gap chart)

### Motorized Lift

- **See motorization product information guide for additional options, sizing, and pricing**
- Allows for easy operation of hard-to-reach or large window coverings
- Efficiently manages energy (heat gain and loss)
- Motorized lift shades are cordless lift and are a safer choice for homes with children or pets
- Low-voltage motorization requires no costly electrical hard-wiring
- Available with multiple power source options and various control types
- Line voltage for light commercial application must be installed by a certified electrician
- Hold down brackets not available
- Available with standard or reverse roll; cassette and fascia valance only available with standard roll
- Optional contour valance, cassette valance with fabric insert, flat valance, or wood cornice
- Motor located on the left or right side; standard on the right

**NOTE:** Limited lifetime warranty—see motorization product information guide for motorization warranty details.

## Options

### Dual Shades (U.S. ONLY) or Enclosed Loop Dual Shades (Canada ONLY)

Dual Shade with Large Cassette Valance

#### For surcharge, see price charts

Dual shades create versatile light control and privacy levels for any interior. The dual shade design integrates any two fabrics from the solar and roller collections, which can be independently lowered or raised as needed.

Combine the sheer, light-filtering, room-darkening, or blackout fabrics of your choice. Raise or lower each shade independently depending on time of day or need for privacy. Add a roller shade fabric to complement the room décor.

- Features the same Continuous-Loop (U.S. ONLY), Enclosed Loop (Canada ONLY), and Motorized Lift operation as our roller and solar shades
- Select fabrics available in sliding panels and vertical collections for whole-décor coordination

#### Recommendations

- Use the back shade or shade closest to the window for light regulation (recommended: solar, sheer, and blackout fabrics)
- For the front shade, select roller fabrics to match the room décor and maintain privacy
- Outside mount is recommended for maximum light control
- Select scallops and trims for a finishing touch (roller fabrics only)
- All Dual Shades can be Continuous-Loop Lift (US only), Enclosed Loop Lift (Canada only), or low-voltage Motorized Lift
- Only stainless steel chains are available in Canada; stainless steel and color-coordinated bead chains are available in the US in Black, Brown, and White
- Dual shades can be configured with the large cassette valance, 7½" Noble and Regal wood cornices
- 5½" Noble and Regal wood cornices are available only when dual shade has no cassette with inside mount and cornices are outside mount
- Curved, classic, and symphony valances are not available
- EasyTouch Cordless Lift, EasyTouch Dual Lift, Enclosed Loop EasyTouch Dual Lift, Cordless Lift, and Smart Pull Lift systems are not available
- Contour valance, flat valance and fascia are not available
- Hold down brackets are not recommended for dual shades
- For motorized lift shades, the multi-channel remote control is recommended

#### Shade Configuration without Cassette Valance

- Front shade (closest to room) is always a reverse roll, providing a consistent, even look to the shade
- The back dual shade (shade closest to the window) can be a standard roll or reverse roll
- The front and back shade beaded chain can be positioned either left or right pull

#### Shade Configuration with Cassette Valance

- Because two shades must fit into a single cassette valance, the dual shade requires the large cassette valance; small and medium cassette valances are not available
- The fabric for the fabric-wrapped cassette valance is selectable, either front or back shade fabric
- Front and back shades are standard roll
- The front and back shade beaded chain can be positioned either left or right pull

Inside Mount Light Gap  
(Refer to light gap chart.)

		Standard Roll	Reverse Roll	Left Control	Right Control	Motorized Lift
No Cassette	Front shade		•	•	•	•
	Back shade	•	•	•	•	•
Large Cassette	Front shade	•		•	•	•
	Back shade	•		•	•	•

#### To Price Your Order for Dual Shade

1. Select front shade control type (Enclosed Loop, Continuous-Loop, or motorized lift), size, color, and options.
2. Select back shade control type (Enclosed Loop, Continuous-Loop, or motorized lift), size, color, and options.
3. Add the front shade with options and the back shade with options.
4. If desired, add large cassette.
5. Add the dual shade surcharge (see price charts for dual shades).

## Options

### Contour Valance

- **For surcharge, see price charts**
- A contoured PVC valance is available for most shades
- Spline and returns are color coordinated
- Custom length returns are available from 2" to 5¼"
- The contour valance is not available with the dual shade or reverse roll
- Maximum width of the contour valance depends on the maximum width of the chosen fabric and if the fabric can be rotated
- A valance only option is available for EasyTouch Dual Lift, Enclosed Loop EasyTouch Dual Lift, and EasyTouch Cordless Lift; single valance is available up to 144" in width to cover multiple shades with a single valance
- Valance fabric is not oriented to the shade fabric (e.g., on a patterned fabric, the pattern of the shade fabric and that of the valance fabric will not necessarily align)
- Not available for railroading on contour valances: Tahoe BO, Tahoe LF, Kyoto, Fiji BO, Fiji LF, Andes, EcoLiving, Boyden, Candid, Robin, SafeElements, Cora, Baybridge, EnviroStyle, Acadia BO, Acadia LF, Flecked, Harbor, Wales, Santana, Plush, Cascade, Bristol, and Landscape

**NOTE:** Returns can be trimmed to desired length with scissors or a utility knife.

### Cassette Valance

- **For surcharge, see price charts**
- A curved, sleek, aluminum-extruded, fabric-covered valance is available as a surcharge option
- Valance fabric is not oriented to the shade fabric (e.g., on a patterned fabric, the pattern of the shade fabric and that of the valance fabric will **not** necessarily align)

**NOTE:** The curved cassette valance must be ordered at the same time as the shade.

#### Cassette Valance Availability

The cassette valance size is determined by multiple factors. Available cassette sizes by shade type are shown below.

	Small	Medium	Large
EasyTouch Cordless Lift	•	•	•
EasyTouch Dual Lift or Enclosed Loop EasyTouch Dual Lift	•	•	•
Enclosed Loop or Continuous-Loop Lift	•	•	•
Motorized Lift	•	•	•
Cordless Lift	•	•	
Smart Pull Lift	•	•	
Dual Shade or Enclosed Loop Dual Shade			•

**NOTE:** Fabric for cassette valances is turned width for height. In cases of normal fabric orientation, the pattern on the cassette valance runs perpendicular to the pattern on the shade. If the shade is railroaded, the pattern is the same.

## Options

### Fascia

- **For surcharge, see price charts**
- Aluminum-extruded fascia is available in 3" and 4"
- Notchless fascia available (not available with SL30 clutch)
- Not available with Smart Pull Lift, cordless lift, and dual shades
- Color coordinated end covers are provided for outside mount
- Projection brackets are not available

**NOTE:** Fascia must be ordered at the same time as the shade.

#### Fascia Colors

Black . . . . .	939
Bronze . . . . .	876
Clear Anodized . . . . .	875
Vanilla . . . . .	970
White . . . . .	871

### Flat Valance

- Modern 5" high flat profile
- Custom length returns are available from 2"– 4¾"
- A Flat PVC fabric-wrapped valance is available for most shades
- Spline and returns are color coordinated
- The flat valance is not available with dual shade or reverse roll
- Maximum width of the flat valance depends on the maximum width of the chosen fabric and if the fabric can be rotated
- Valance fabric is not orientated to the shade fabric (e.g., on a patterned fabric, the pattern of the shade fabric and that of the valance fabric will not necessarily align)
- Not available for railroading on flat valances: Tahoe BO, Tahoe LF, Kyoto, Fiji BO, Fiji LF, Andes, EcoLiving, Boyden, Candid, Robin, SafeElements, Cora, Baybridge, EnviroStyle, Acadia BO, Acadia LF, Flecked, Harbor, Wales, Santana, Plush, Cascade, Bristol, and Landscape

**NOTE:** Returns can be trimmed to desired length with scissors or a utility knife.

### Control Lengths for Smart Pull Wand

Finished Shade Height (inches)	Wand Length (inches)
up to 24	12
24½ - 36	18
36½ - 48	24
48½ - 60	30
60½ - 72	36
72½ - 84	42
84½ - 96	48
96½ - 120	54

**NOTE:** Enclosed Loop Cover in relation to the final shade length will vary between +/- 3 to 6 in. based on size of shade.

# Options

## Roller Shades: Scallop Options

Cathedral

Classic

Colonial

Dentil

Provence

- For surcharge, see price charts
- Not available with solar shades
- Not available with EasyTouch Cordless Lift, EasyTouch Dual Lift, or Enclosed Loop EasyTouch Dual Lift
- The finished shade height is measured at the hem bar; scallops extend 5¼" past the hem bar
- Patterns are centered as pictured and repeat across the width of the shade

**NOTE:** Scallop is not available for the following fabrics: Boyden, Everly, Gaberdine, Hopewell

Scallop Style	Pattern Repeat (inches)
Cathedral	11¼
Classic	10
Colonial	18
Dentil	8
Provence	18

Cordless Lift Option with Tassels

# Options

## Roller Shades: Gimp Option

- **Surcharge included with scallop option**
- You must choose a gimp when ordering a scallop or trim
- Option applied to scallop

### Gimp

Black . . . . .	156	Rock Gray . . . . .	399
Cream . . . . .	715	Stucco . . . . .	963
Dark Beige . . . . .	350	Toffee . . . . .	296
Maize . . . . .	02	White . . . . .	417

## Roller Shades: Bead Trim Option

- **For surcharge, see price charts**
- Must order gimp, in addition to bead trim
- Bead trim not available on solar shade material

### 1" Teardrop Bead Trim

Antique Rose . . . . .	206	Sand . . . . .	204
Bronze . . . . .	201	White . . . . .	205
Light Gold . . . . .	202		

1" Teardrop Bead Trim

# Options

## Corner Windows

- **No charge**
- Made as individual shades
- Each shade has its own control; we recommend opposite corners
- Indicate for each shade whether left or right, and butt or bypass
- Bypass shade is mounted into the corner; butt shade is butted to the other shade
- Manufacturer takes appropriate deductions for proper fit; DO NOT order as a corner shade if you do not want manufacturer to take deductions
- Valances create larger gap between shades
- Not available with side channels

### Measuring Information

#### Mounting on a Wall or Molding

Measure the width of each window from the corner on the mounting surface (molding or wall) to the point you would like to cover.

#### Mounting Above the Molding

Measure the width of each window from the corner on the mounting surface to the point you would like to cover.

Projection measurement is the distance needed to clear any molding or obstructions that the shade will be mounted above.

**NOTE:** The projection (P) distance is needed to correctly calculate deductions for installations where the shades will use shims or projection brackets to clear molding. All projection distances must match for correct deductions to be calculated.

# Options

## Bay Windows

- **No charge**
- Made as individual shades
- Each section will have its own control
- Manufacturer will take appropriate deductions for proper fit; DO NOT order as a bay window shade if you do not want manufacturer to take deductions
- Not available with side channels
- **Valances will create a larger gap between shades**

### Measuring Information: Three-Sided Bay Window

#### Measure:

##### L and R:

Width of each side window from the corners on the mounting surface to the point you would like to cover.

##### C1:

Width of the center window on the mounting surface from corner to corner.

##### Angle L-C1:

Angle between the (L) and (C1) windows.

##### Angle C1-R:

Angle between the (C1) and (R) windows.

##### Projection:

If needed: The depth of the trim or molding the shade will be mounted above.

### Measuring Information: Four-Sided Bay Window

#### Measure:

##### L and R:

Width of each side window from the corners on the mounting surface to the point you would like to cover.

##### C1, C2:

Width of each center window on the mounting surface from corner to corner.

##### Angle L-C1:

Angle between the (L) and (C1) windows.

##### Angle C1-C2:

Angle between the (C1) and (C2) windows.

##### Angle C2-R:

Angle between the (C2) and (R) windows.

##### Projection (P):

If needed: The depth of the trim or molding the shade will be mounted above.

**NOTE:** The projection (P) distance is needed to correctly calculate deductions for installations where the shades will use shims or projection brackets to clear trim or molding. All projection distances must match for correct deductions to be calculated.

For additional windows on bays with up to five sides, continue with number progression for center shade sizes (C1, C2, C3...) and angles (angle C1-C2, angle C2-C3...) as needed.

Measure each bay angle using a protractor or angle finder or use two business cards in each bay corner as illustrated above, trace on paper, and fax to customer service.

**The angle to use between adjacent center bay windows along a straight section of wall is 180° (degrees).**

# General Information

## EasyTouch Cordless Lift Shade Product Detail

### Projection Bracket (optional)

- Medium 3¼"
- Long 4"

### Flat Valance (optional)

- Fabric covered to match shade

### Flat Valance Returns

- Color coordinated and fabric covered to match shade

### Contour Valance (optional)

- Fabric covered to match shade

### Contour Valance Returns

- Color coordinated and fabric covered to match shade

### Fascia Bracket

- Secures shade and fascia
- Can be top, side, or back mounted
- Color coordinated end covers are provided for outside mounts

### Fascia (optional)

- 3" and 4" sizes
- Available in Black, Bronze, Clear Anodized (Silver), Vanilla, and White
- Must order with shade

### Cassette Valance (optional)

- Cassette valance is a sleek, aluminum-extruded cassette system covered in fabric to match shade
- End caps color coordinated to fabric
- Cassette valance has shade assembled in the valance

### Mounting Bracket

- Universal bracket for control and idle end
- Color coordinated to shade fabric can be top, back, or side mounted
- Aesthetically beautiful mounting hardware that covers and hides shade mechanics

### Self-Centering Plunger

- Self-centering for easy install

### Hold Down Bracket (optional)

- Secures shade to door, wall, or window sill
- Clear plastic

### Shade Fabric

- Roller styles ranging from light- and dark-colored solids to beautiful jacquard weaves
- Solar fabric ranges from 1% to 10% openness

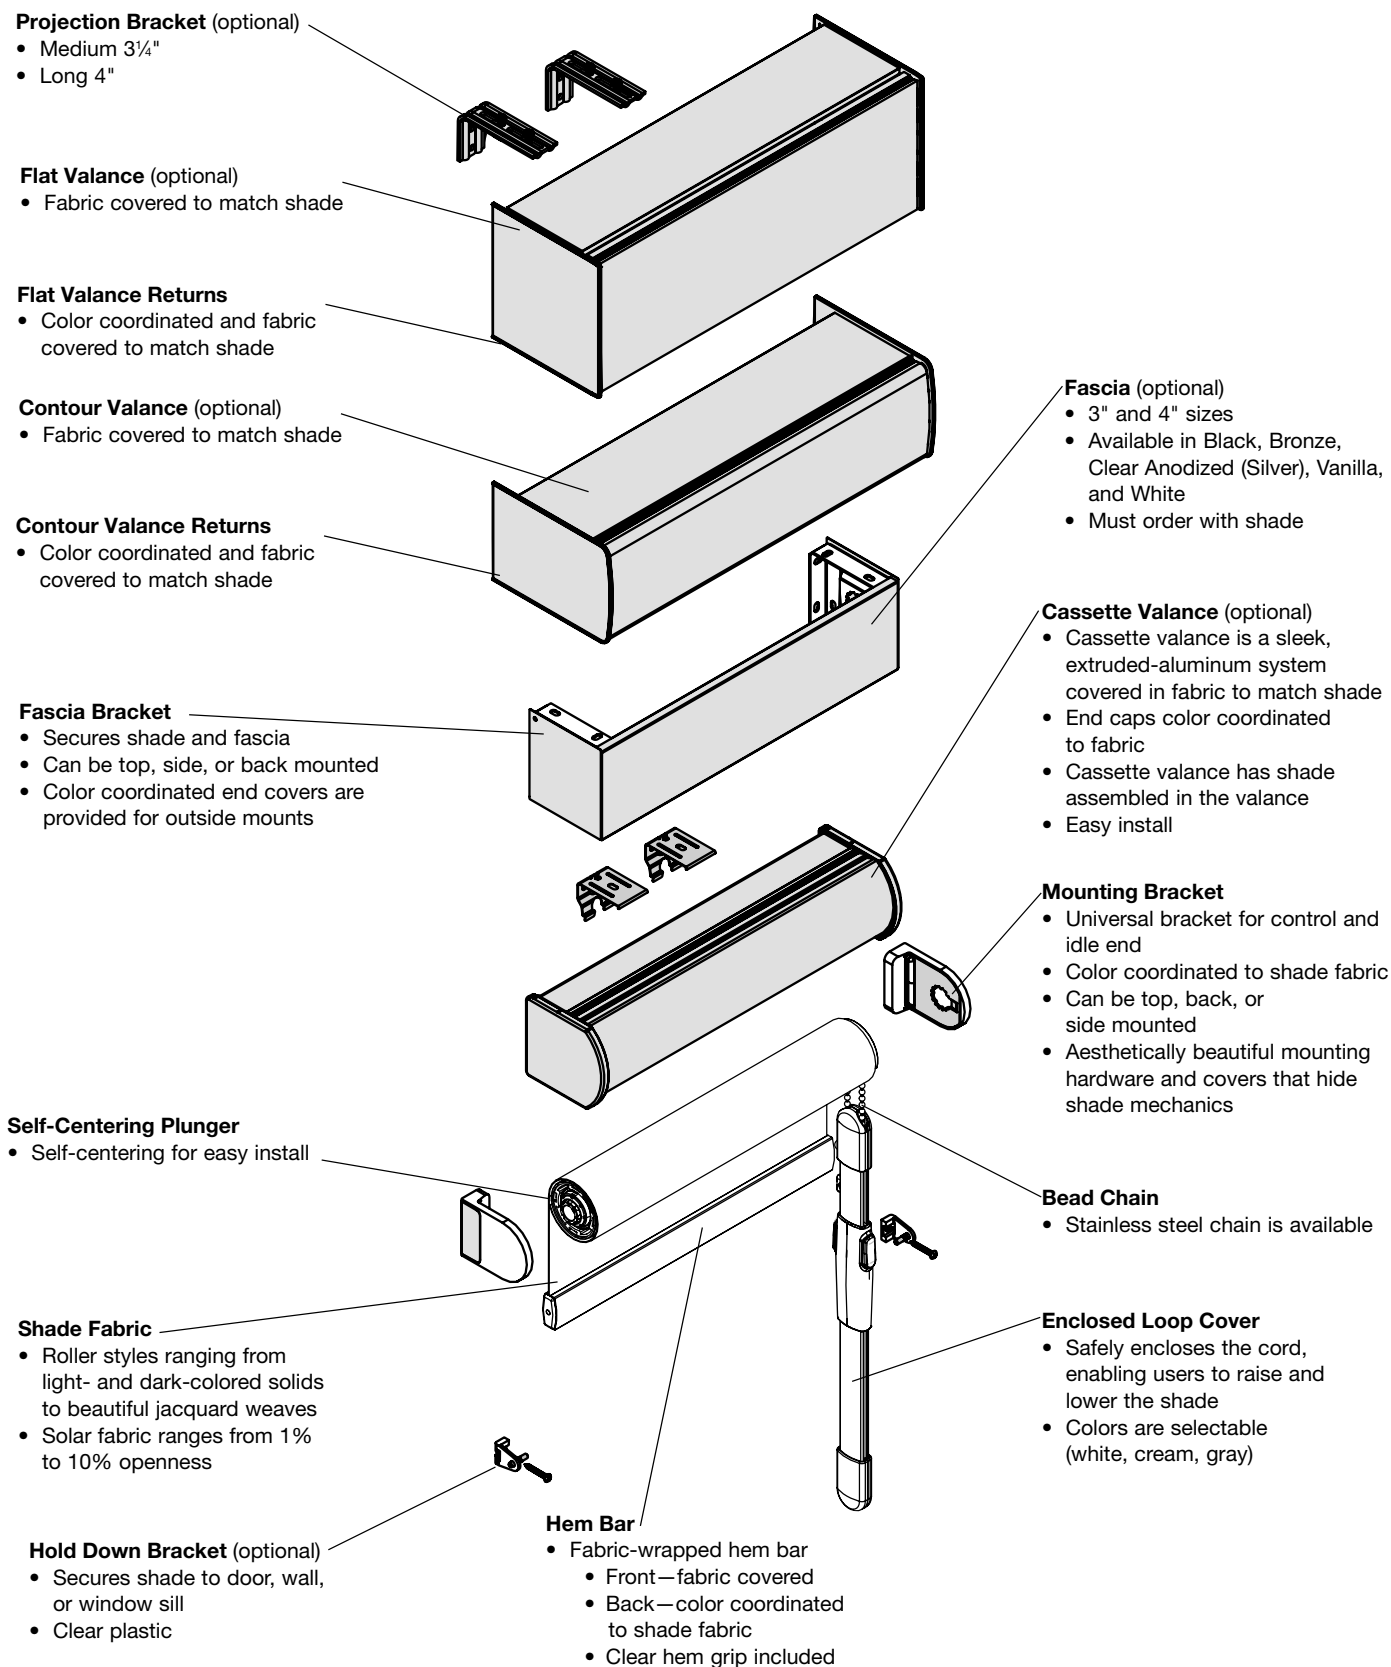

### Hem Bar

- Fabric-wrapped hem bar
  - Front—fabric covered
  - Back—color coordinated to shade fabric
  - Clear hem grip included

**NOTE:** Cordless lift shades should only be used on windows where consumers can comfortably raise and lower the shade with their hand and have easy access. Very high or hard-to-reach should use EasyTouch Dual Lift, Enclosed Loop EasyTouch Dual Lift, Enclosed Loop Lift, Continuous-Loop Lift, Smart Pull Lift, or motorized lift shades, rather than cordless lift.
