Prior To Installation

1. Please be sure to read the manual carefully before installation.
2. Check all parts first to ensure they are complete and undamaged. If any damage occurred during shipping, please contact us promptly via email at cs@losflexi.com to request replacement parts.
3. Before use, ensure all components are securely fastened by an adult, especially the screws and anti-slip pads.
4. This product is not a toy. It must be used under adult supervision to prevent misuse by children (e.g., climbing on it like a toy), which may result in accidental injury.
5. Please note that the product should be cleaned with wet wipes or rinsed with water only. Do not use acidic or alkaline cleaners.
6. **Friendly Reminder:**
Before each use, ensure the product is securely installed. If it becomes loose or shows any signs of damage, do not allow children to use it. Always use the product in a safe environment.

Accessory List

Installation Steps

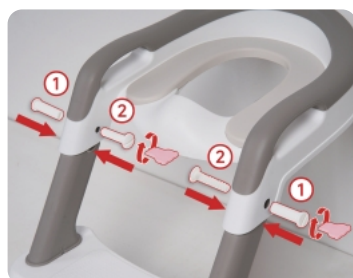

1. Match the "L" and "R" markings on pedals with corresponding pillars. Insert pillars into pedal holes following the directional arrows.

2. Position the middle pedal flat as shown and insert it following the directional arrows.

3. Align the "R" pillars to "R" pedals and "L" pillars to "L" pedals. Insert all pieces following the arrows.

4. Insert nuts from the inside and attach screws from the outside. Use the provided fastening tool to tighten securely.

5. Align the toilet seat with the holes as indicated by the arrows.

6. Line up the toilet seat holes with the pillar holes. Insert screws from inside to outside, attach nuts from outside to inside, and tighten with the provided fastening tool.

7. Attach six black non-slip pads under the step ladder to complete installation.
