

Questions on Installation ?

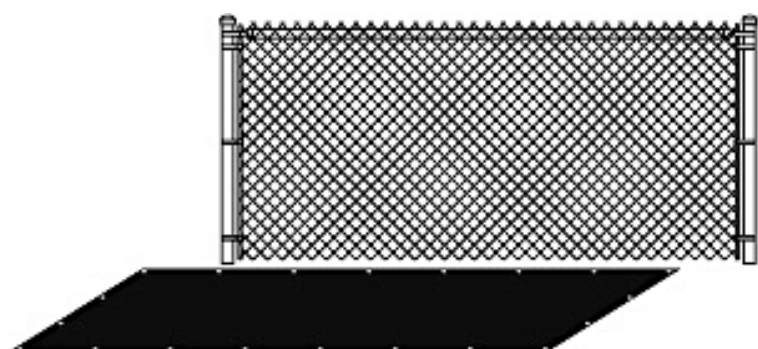

Please follow these easy steps for attaching our Privacy Fence Screens on your fence

Zip ties and Hog Rings are not included

NCSNA, INC.

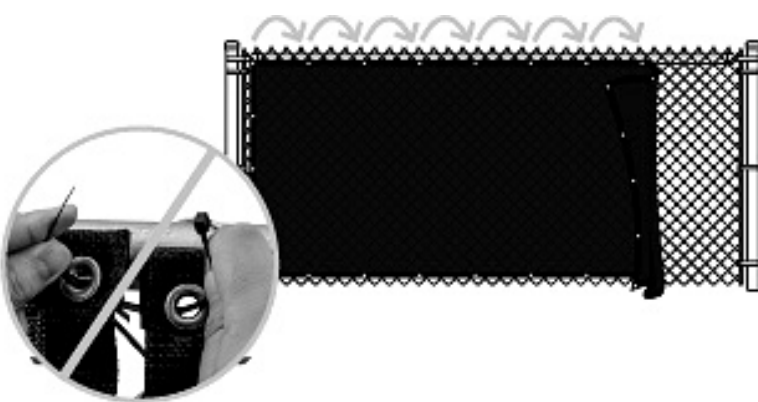

FENCE SCREEN INSTALLATION STEPS

► Step 2

USE UV ZIP TIES OR HOG RINGS

- Start from one top corner, either left or right side.
- Attach the fence top rail through the top corner grommet.

► Step 4

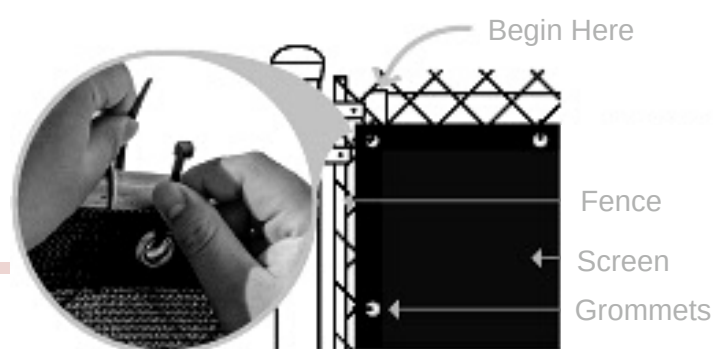

CONTINUE ON THE SIDES

- Attach the side grommets to the fence going in sequence. Be sure to stretch and pull for a wrinkle-free installation.
- Pull material tightly and secure bottom grommets to the fence.
- YOU ARE DONE!

► Step 1

PLAN & MEASURE OUT FENCE

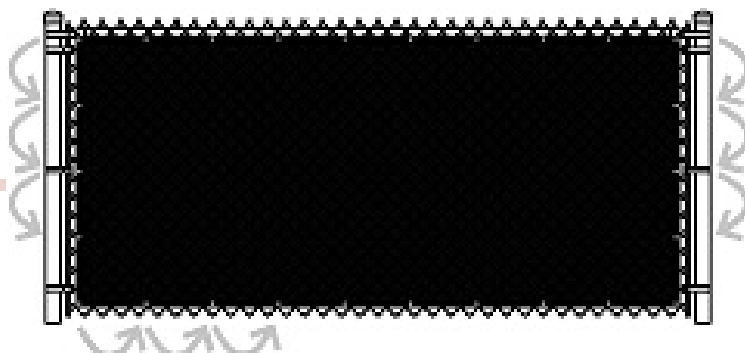

- Start by unfolding the screen and lay in front of the fence.
- Either side of the screen will work.

► Step 3

CONTINUE ACROSS

- Complete securing each top grommet to the fence. Be sure to pull the material tightly across and evenly pulling to stretch the material for a wrinkle-free installation.
- If using multiple sections, do not connect the screens together yet, but only secure to the fence.
