Download

The Cree Lighting App is available for both iOS and Android.
Search **Cree Lighting** in the App store or Google Play to download the app.

Download App (iOS)

Download App (Android)

Pairing to your network

The Connected Max Smart Indoor Camera must pair to a 2.4GHz Wi-Fi network. Once paired, you can control on any Wi-Fi or cellular network. For most users, pairing will be quick and simple. But depending on the type of wireless router you have, you may need a little more information to get started. **Refer to our Wireless Router Guide at creelighting.com/connectedmax for more information.**

NOTE: If you need to re-select the Wi-Fi network, please press and hold the "RESET" button for 5 seconds, the device will restart, and the indicator will be flashing red.

How to pair your Indoor Camera

Download the Cree Lighting app and register your account. Open the Cree Lighting App, click "Sign Up", read the "User Agreement Privacy Policy" and click "Agree."

QR Code Configuration

- 1 Click "Add Device" or "+" and then select "Cameras" to add Indoor Camera.

- 2 The status indicator on the camera should be flashing quickly. If it is not, reset the camera and then tap "Next." Then input your Wi-Fi credentials and tap "Next." **NOTE: Camera only supports 2.4GHz Wi-Fi network**

QR Code Configuration

- 3 Next, scan the QR code on your phone with the camera, when you hear an audible prompt, pairing has been completed. Tap on "I Heard a Prompt."

QR Code Configuration

- 4 Now the camera will pair with your network.

IMPORTANT PRODUCT INFORMATION

SAFETY INFORMATION: FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS COULD RESULT IN FIRE, ELECTRIC SHOCK, OR OTHER INJURY OR DAMAGE.

This device is not intended for underwater use. To protect against electric shock, do not intentionally submerge or immerse your device, battery, or adapter in water or expose your device or adapter to other liquids. Do not spill any food or beverages on your device, battery or adapter. Do not attempt to clean or polish your device, battery, or adapter with or expose your device, battery, or adapter to oil, lotion, or other abrasive substances. Don't expose your device, battery, or adapter to salt water or other conductive liquids. Do not expose your device, battery, or adapter to pressurized water, high velocity water, or extremely humid conditions (such as a steam room). If your device, battery, or adapter gets wet, carefully unplug all cables without getting your hands wet and wait for it to dry completely before plugging it in again. Do not attempt to dry your device, battery, or adapter with an external heat source, such as a microwave oven, or hair dryer. To avoid risk of electric shock do not touch your device, battery, or adapter to any wires connected to your device during a lightning storm while your device, battery, or adapter is plugged in. If your device, battery, or adapter appears to be damaged, discontinue use immediately.

Use only accessories supplied with your device or specifically marketed for use with your device, to power your device. Use of third-party accessories may impact your device's performance. Read all safety instructions for any accessories before using with your device.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and consider removing the no-collocation statement.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
