

12 in. 180-Degree Single Spoke Mounting Bracket Tenon Adapter

PRODUCT DESCRIPTION

The 180-Degree Single Spoke Mounting Bracket Tenon Adapter is designed for mounting one shoe box light fixture with an adjustable slip fitter. They are suitable for use with LED street lights, shoebox parking lights, and parking lot pole brackets. The bracket arms have a top outer diameter of 2-3/8 inches and a dark bronze finish. The arms are made of durable die-cast aluminum, weighing approximately 5 pounds. They feature tenon top poles, providing a secure mount for your light fixture.
