

KNOW YOUR SPA

Lucite Xtra Acrylic

Shell is made with an impervious, low maintenance premium acrylic sheet

WeatherGuard™ Cabinet

This wood frame cabinet with maintenance-free, synthetic reversible panels provides a beautiful exterior without the hassle

Insulated Hard Cover

A 4-2 inch cover provides adequate protection from the elements and keeps your spa properly insulated

1 KW Convertible Heater

Keep your spa hot all season long - can be upgraded to a 240 Volt system with a 4 KW heater

Plug & Play Spa

No electrician required - just fill the spa with water, plug into a 120 Volt/15 Amp outlet, and enjoy!

Polar Insulation

Protects your spa with a layer of insulation lined with radiant foil

Assembly-Free Spa

Your spa comes completely assembled - just attach the lockable cover

Easy Access to the Essentials

The panel located under the topside control contains all of the essential spa equipment

15 Foot GFCI Cord

Your 15 foot GFCI cord typically comes stored in the equipment area under the topside control panel
