EVEREST™

Max Wire Rack
ASSEMBLY GUIDE

IMPORTANT SAFEGUARDS

Read all instructions and warnings before proceeding.
If you do not understand any portion of the instructions, do not attempt assembly; email **customerservice@kindredproducts.net** or call (866)456-0866.

This Assembly Guide provides instructions on how to assemble and use your Everest™ Max Wire Rack.
It is critical that the Rack be assembled correctly and according to the instructions.

WARNING!

1. Strictly follow all instructions to avoid an accident, damage to property, personal injury, or death.
2. Do not sit, stand, or climb on shelves and do not let children do so. Components might fail, causing a person to fall, possibly resulting in serious injury or death.
3. Use two or more individuals to place the Rack.
4. The product is intended for use in working areas including offices, homes, craft rooms, garages, etc.
5. The product is intended to be placed on a level floor.
6. Place items on the Rack so that they are evenly distributed. Total weight on each shelf should not exceed 600 lbs.
7. **FOR CALIFORNIA RESIDENTS ONLY – WARNING:** Cancer and reproductive harm. For full information, go to www.P65Warnings.ca.gov.
8. **CAUTION!**
   - It is the consumer's responsibility to assemble this system in accordance with provided instructions.
   - Failure to follow warnings could cause product to tip over, and result in serious injury.

SAVE THESE INSTRUCTIONS

Before You Begin

This guide is written for a person with a basic understanding of tools and tool usage.

The following tools are recommended to assist with assembly of the Rack:

- Rubber mallet
- Phillips-head screwdriver

Choose the location for the Rack. Because of its size, it may be easier to assemble the Rack near its final location. A clean work area, free of clutter, is recommended.

Read and follow all safety and assembly instructions before assembly and use of the product.

Lay out, set up, and inventory all tools and parts.

Scan the QR code to watch the assembly video.

CAUTION: Be sure to follow proper assembly and use instructions to help avoid injury or property damage.

CAUTION: Do not overload or unevenly load the Rack. Overloading the system could result in injury or property damage.

Parts List

Rack components (quantity)

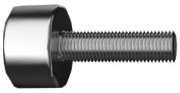
A

Bottom Pole (4)

B

Top Pole (4)

C



Leveling Foot (4)

D

Slip sleeves (4 sets per shelf, plus 1 extra set*)

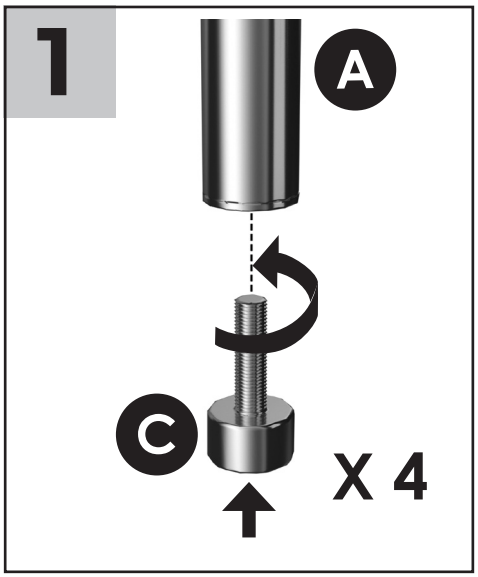
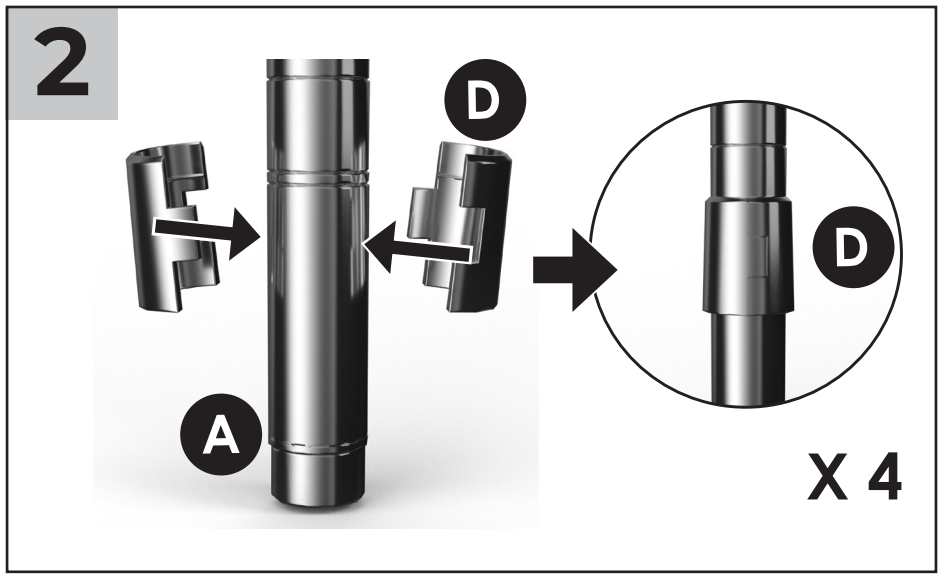
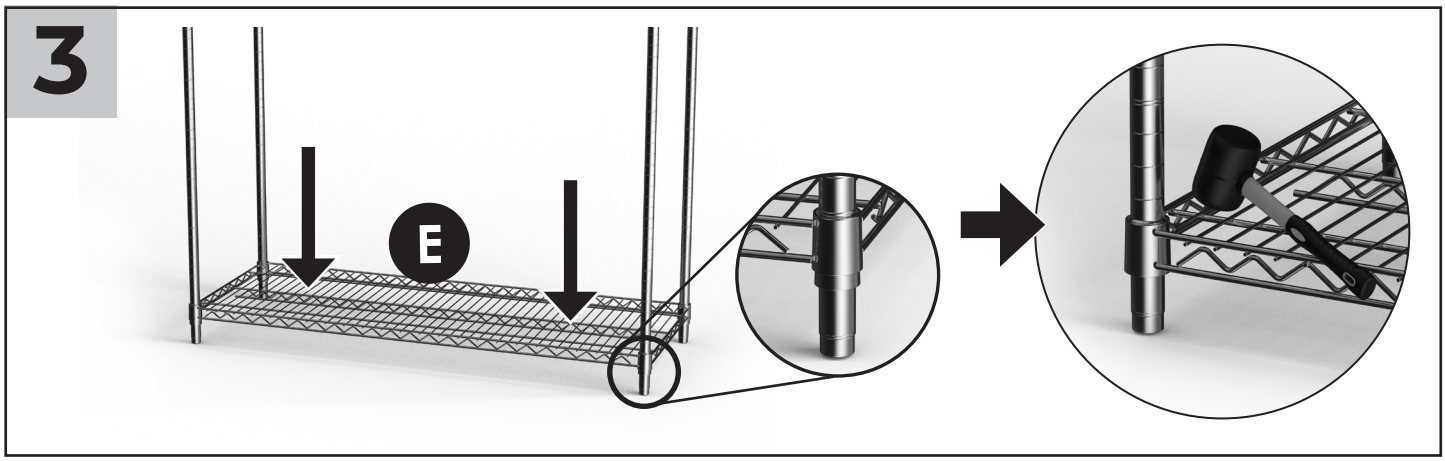
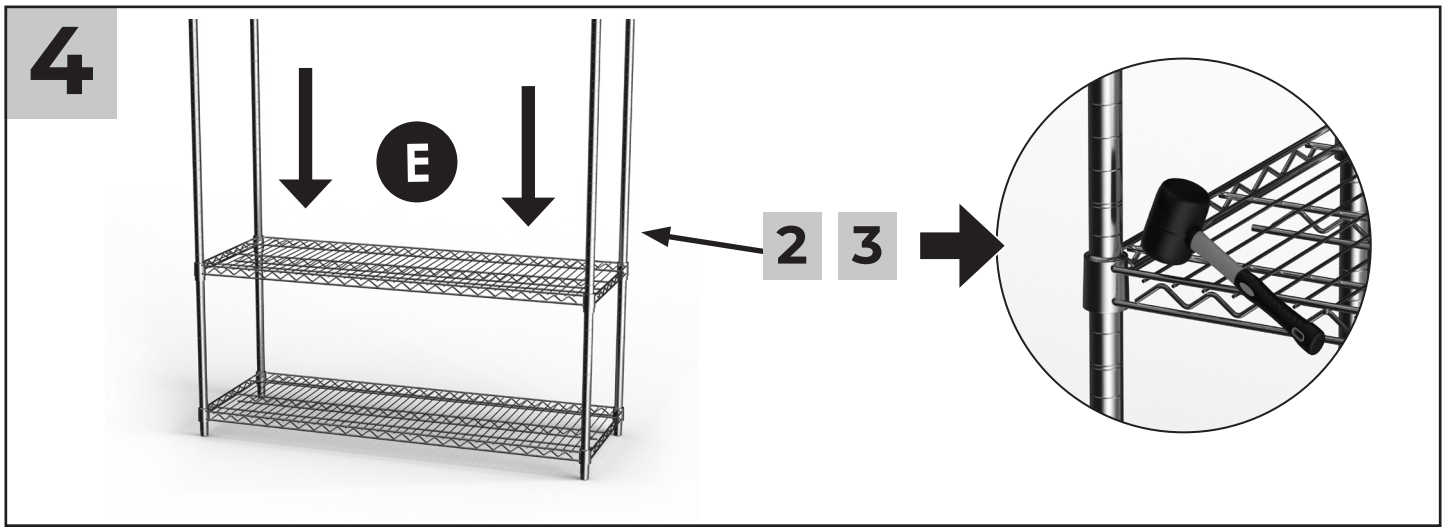
Assembly



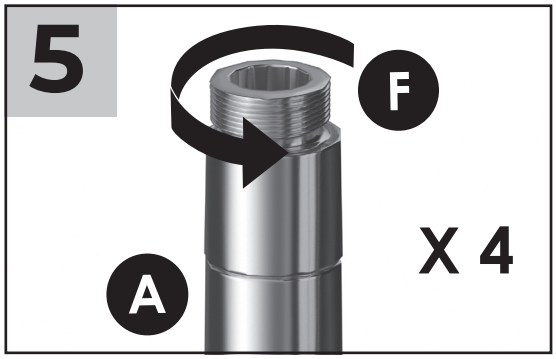




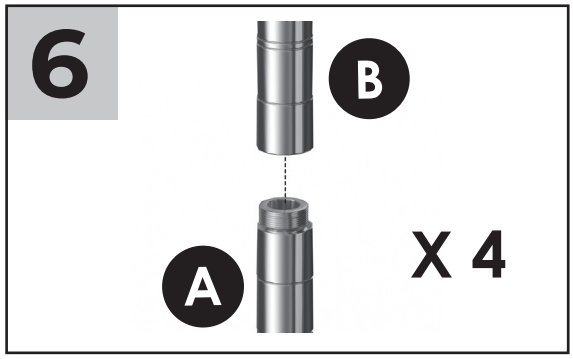


Assembly, cont.

5

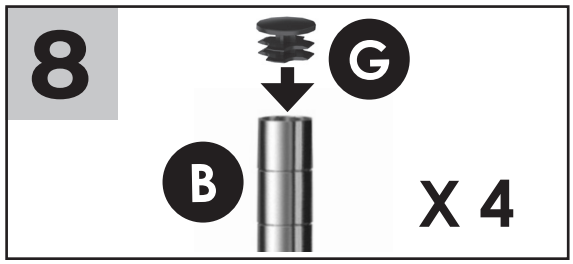


6



7 Follow Steps 2 and 3 for all remaining shelves.

8



9 Once you've placed the Rack in its intended location, **install the anti-tip hardware**.

- Secure the cable tie bases to the wall using the drywall anchors and screws.
  NOTE: Do not overtighten the screws.
- Thread a cable tie through a cable tie base, then around the rear vertical poles.
- Repeat with other cable tie and base.

Your Everest™ Max Wire Rack is now ready for use.
Thank you!
