

Hello, MY NAME IS:

Thanks
FOR BRINGING
ME **home!**

SPRUCE ME UP! I've been in a dark box traveling. Here are **quick tips** to get me settled:

- **Remove** yellow leaves or broken stems.
- If my soil is dry, give me a **drink of water**.
- Set me in the **right light**.

WATCH ME GROW! Keep this card for your records.
Care instructions are on the reverse side.

MY BIRTHDAY
(date I arrived)

FAVORITE THING
(about me)

WATERING SCHEDULE

Costa
Farms®

HERE'S HOW TO TAKE CARE OF ME

Pothos

LIGHT

I tolerate low light well, but will grow best in bright spots. Direct sunlight will burn my leaves. I will grow more slowly and may show less coloration in low light.

WATER

Water when the top inch of the soil is dry, allow water to drain thoroughly; remove any excess water. Too much water can make the roots drown and die.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

Not only am I super easy to grow, I am drought-tolerant and purify the air.

GROWING TIPS

You can prune long vines, it will sprout new vines. If you pot the part you cut off in soil or water, it may root and grow into another plant.

GIVE ME FRIENDS

(I play well with)

Arrowhead Plant,
Dieffenbachia, or Ponytail Palm
