

Cat Tree

Assembly Instructions

Model:HFMS-168

Product Information

Product Name: Multi-Layer Cat Tree

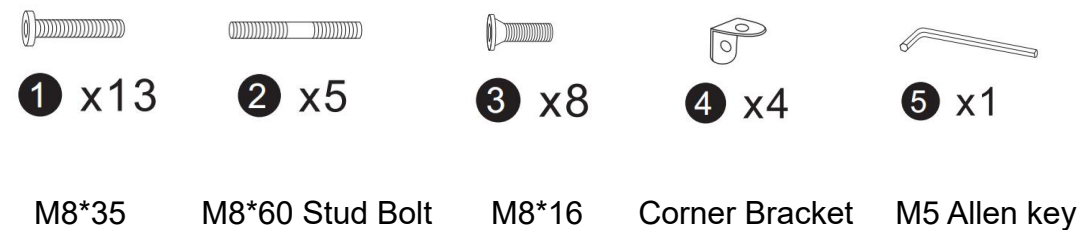

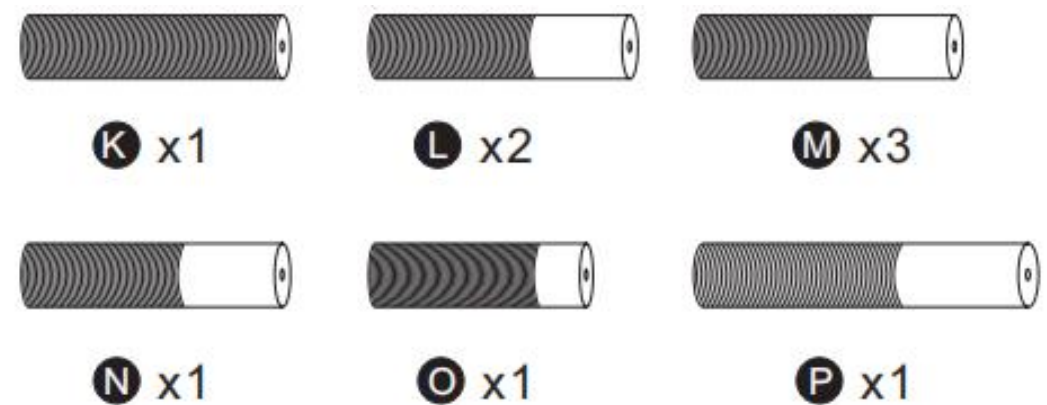

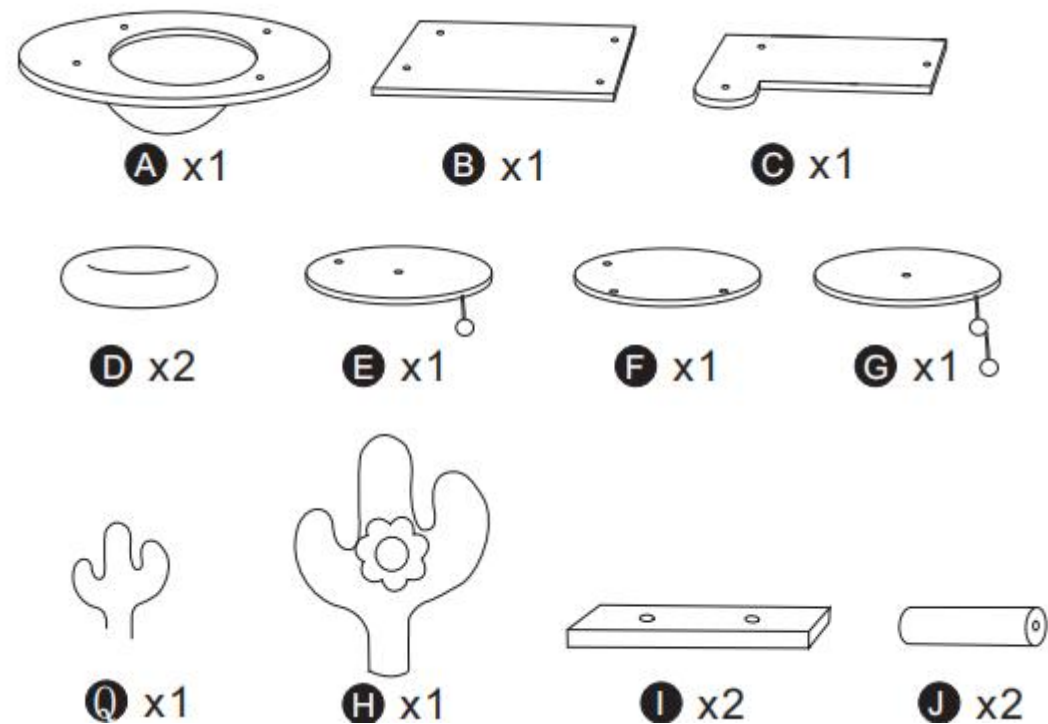

Model No.: HFMS-168

Main Material: High-Density Particleboard, Natural Sisal Rope, Non-Toxic Plush Fabric

Product Overview

Specially designed for European and American markets, this cat tree features a high-density particleboard structure that ensures exceptional sturdiness and load-bearing capacity. Equipped with natural sisal scratching posts and soft plush platforms, it provides a comfortable space for resting and playing. This design satisfies your cat's natural instincts to climb, scratch, and perch, while effectively protecting your furniture from damage. Crafted entirely from non-toxic, eco-friendly materials, the product strictly meets international safety standards for pet supplies.

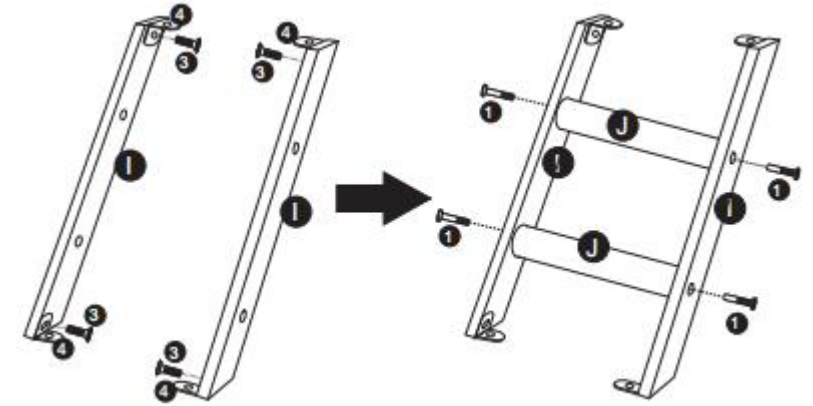

Component List

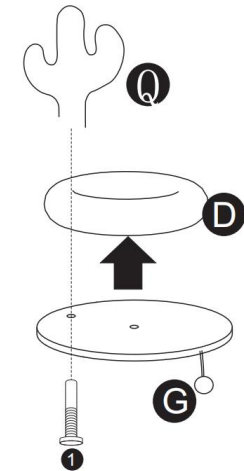

Installation Instructions

The First Step:

Locate parts I and J. Secure and fasten them with fasteners #3 and #4 per the diagram, then set the pre-assembled subassembly aside for later assembly.

Identify all parts and fasteners as marked on the part diagram before you start, then complete assembly following the ordered steps below.

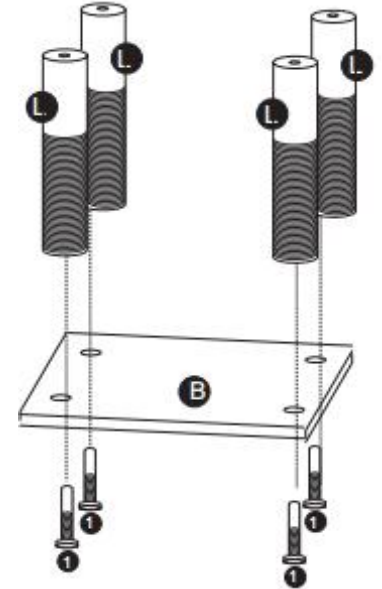

Installation Instructions

The Second Step:

Locate base board B and four pillars L .

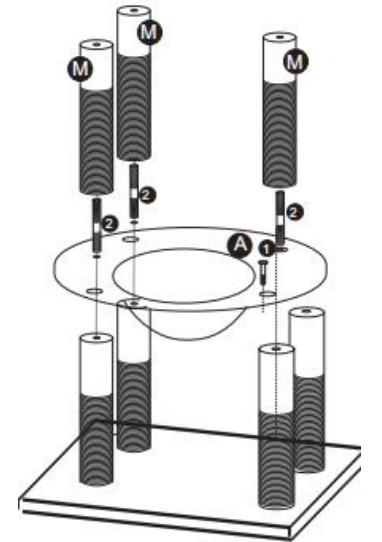

Secure and fasten these components onto the base using fastener #1 from the bottom side per the diagram, and fully tighten all connections.

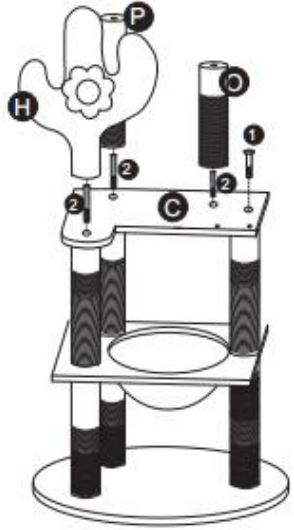

The Third Step:

Locate capsule panel A and three support pillars M.

Secure and fasten these parts together with fastener #2 per the diagram to complete the capsule unit.

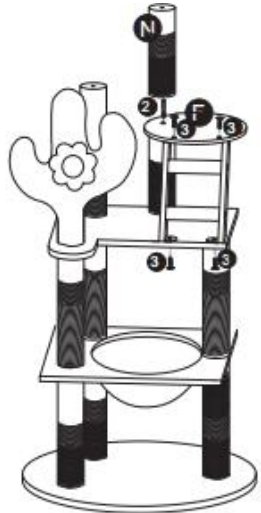

Installation Instructions

The Fourth Step:

Locate panel C, cactus ornament H, pillar O and pillar P.
Secure and fasten all these pieces with fastener #2 per the diagram to finish the cactus platform assembly.

The Fifth Step:

Locate pillar N and panel F first.
Secure and fasten them with fastener #2 per the diagram. Next, take the pre-assembled ladder subassembly from Step 1, secure and fasten it onto this unit with fastener #3 per the diagram.

Installation Instructions

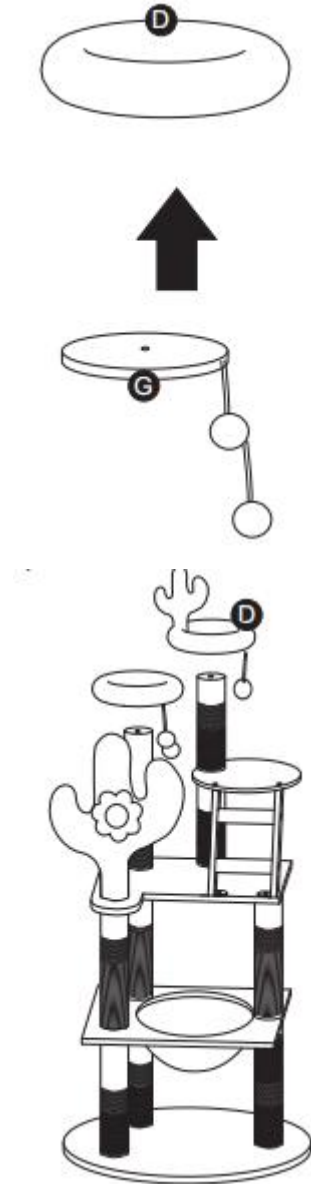

The Sixth Step:

Locate fabric cover D and panel G.

Slip fabric cover D over panel G per the diagram to form a finished standalone component.

The Seventh Step:

Locate the pre-finished D+G component from Step 6 and the main cat tree frame. Secure and fasten the top component onto the main frame with fastener #1 per the diagram to complete full assembly.

Safety Warnings

WARNING: CHOKING HAZARD - Small parts.

Keep away from children under 3 years old and pets that may swallow small components .

WARNING: Do not allow children to climb on this product. This product is intended for cats only, not for human use .

WARNING: To avoid the risk of tipping over, please place the cat tree on a flat and stable ground. Do not place it near windows, balconies or other high places without protective measures .
