

CARE TIPS AND GENERAL INFO FOR: LEMON CYPRESS (CUPRESSUS)

EXPOSURE:

FULL SUN

Lemon Cypress love the sun.
6-8 hours of direct sunlight is best.

BLOOMTIME:

While the Lemon Cypress does not bloom it is the perfect way to add bright color and texture to fairy gardens and planters.

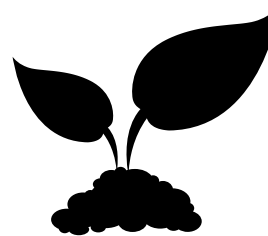

WATERING NEEDS:

MODERATE

Lemon Cypress does not like dry soil.
Keep the soil wet but not drenched.
If the soil dries out you risk needle browning and drop.

SOIL TYPE:

WELL DRAINING

Cypress can tolerate
all types of soil as long as
it drains well.

FERTILIZER:

GRANULAR,
SLOW RELEASE.
Spring only.
