

# CARE TIPS AND GENERAL INFO FOR: DIANTHUS

---

## EXPOSURE:

PARTIAL-FULL SUN

## POLLINATOR:

POLLINATOR MAGNET!  
Bees, birds, butterflies, etc.  
love lavender.

## BLOOMTIME:

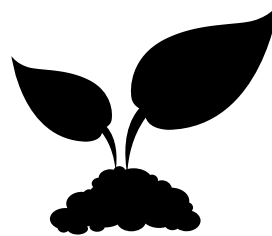

SPRING-SUMMER

## WATERING NEEDS:

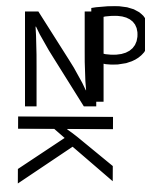

MODERATE.  
Once established  
drier soil is preferred.

## SOIL TYPE:

LOOSE/FAST DRAINING SOILS  
Dianthus does not like to grow  
in wet soil. Avoid heavy, dense,  
soggy soil.

## FERTILIZER:

USE A SLOW RELEASE  
GRANULAR FERTILIZER  
EVERY SPRING & SUMMER .
