ProSensor™ X700

PROFESSIONAL

STUD FINDER

DETECTOR DE VIGAS PROFESIONAL

LEDs Track the Center and Edges of Studs Simultaneously

ACCURATE

The multiple LEDs on the ProSensor X700 track the location of studs to accurately and reliably identify the center and edges of studs simultaneously.

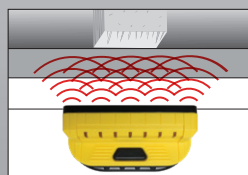

EASY

Just press and hold the button to instantly detect studs. No calibration required.

HOW IT WORKS

The ProSensor X700 has 7 sensors with Multi-Sense Technology. In comparison, conventional stud finders have 1 or 2 Sensors. With more sensors, the ProSensor X700 more accurately identifies the locations of studs.

COMPARISON CHART

	Other Stud Finders	ProSensor™ X700
Number of Sensors	1 - 2 Sensors	7 Sensors
Detects Wood and Metal Studs	✓	✓
Full-Stud-Width Tracking		✓
Detects Centers and Edges Simultaneously		✓
