

## EDGERS | GEOMETRIC EDGER

## INSTALLATION

Mark an outline of your project. Then dig a shallow trench 3" deep by 6" wide to receive the edging unit.

Lock the ball from one unit into the socket of the next to achieve any angle up to 180°. Curves, radii and corners are a snap!

Use this chart to estimate the number of units you will need.

|       | Linear Project Length |     |     |     |     |     |     |     |     |     |
|-------|-----------------------|-----|-----|-----|-----|-----|-----|-----|-----|-----|
|       | 5'                    | 10' | 15' | 20' | 25' | 30' | 35' | 40' | 45' | 50' |
| Units | 5                     | 10  | 15  | 20  | 25  | 30  | 35  | 40  | 45  | 50  |
