Installation Notes

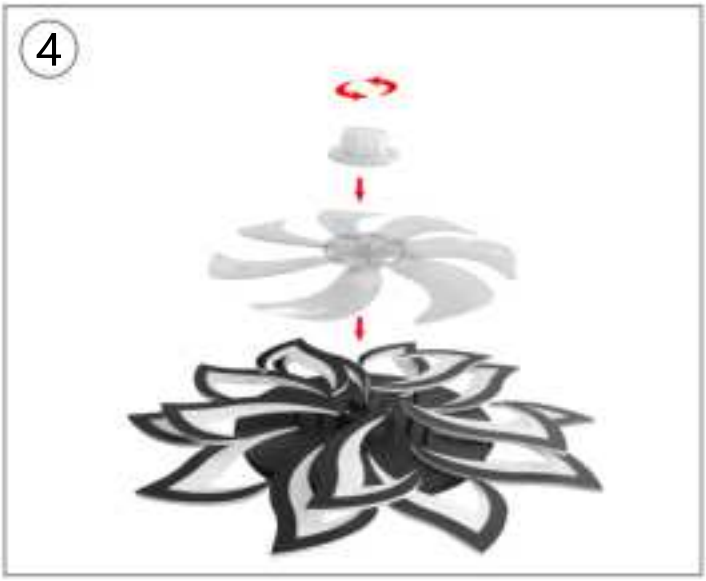

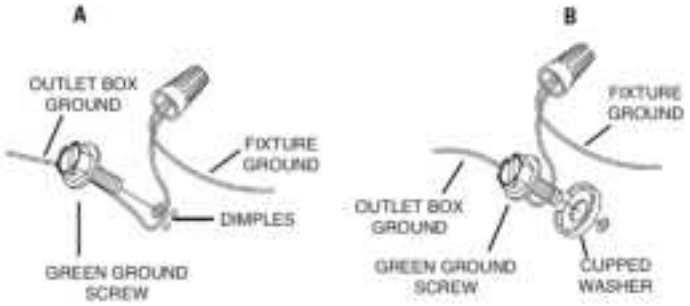

You can watch installation videos at the store fordetailed installation steps

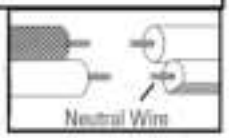

Installation (please cut off the power for security)

1. Open the package and take out the fan light and accessories, then place them on a clean flat place.
2. Assemble the wires as below procedure:

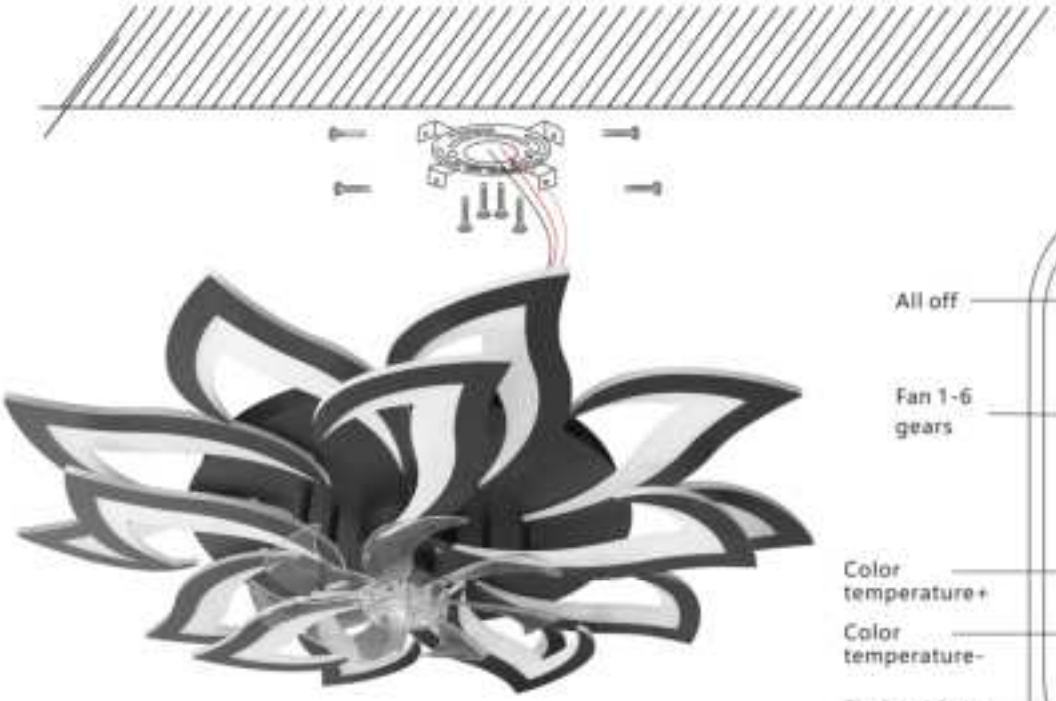

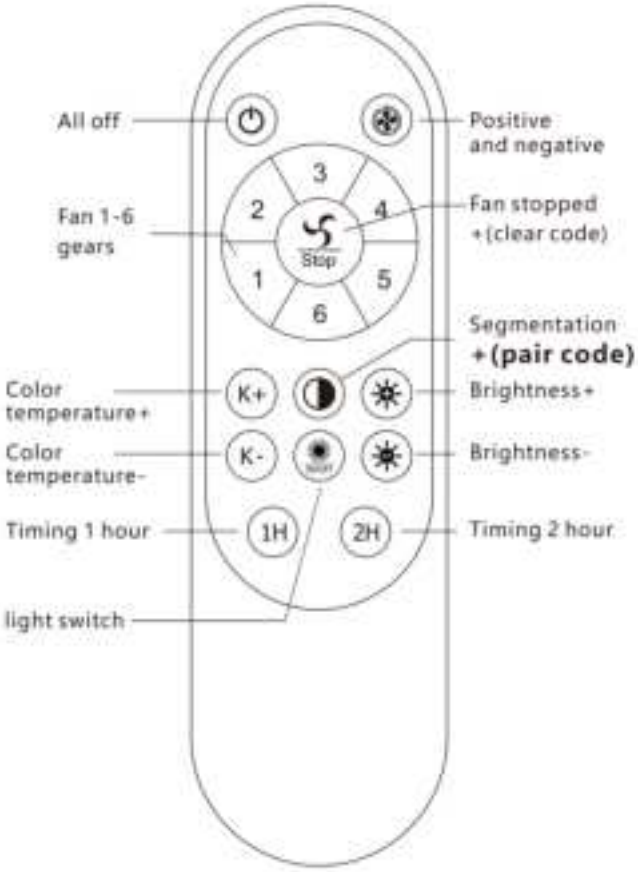

Connect Black or Red Supply Wire to:	Connect White Supply Wire to:
Black	White
*Parallel cord (round & smooth)	*Parallel cord (square & ridged)
Clear, Brown, Gold or Black without tracer	Clear, Brown, Gold or Black with tracer
Insulated wire (other than green) with copper conductor	Insulated wire (other than green) with silver conductor

*Note: When parallel wires (SPT I & SPT II) are used. The neutral wire is square shaped or ridged and the other wire will be round in shape or smooth (see illus.)

3. Fix the fan light to wall by using the screws
4. Check everything installed correctly, then you can turn on the fan light.

Remote control matching code:

Turn on the power and Press and hold the light pairing key within 5 seconds of the light on,When you hear a beep or a light flashes, the code match is successful.If you need to match the code a second time, you need to wait 30 seconds before turning on the power and repeat the above operation.

Wrong Installation

Do not carry the electric wire to install it. The electric wire will break or become loose!

Correct Installation

One person holds the fan lamp and the other person connects the wires to ensure safety.
