

CRYSTORAMA

LIGHTING THE WAY FOR SIXTY YEARS

ASSEMBLY INSTRUCTION MODEL #SIM-804-MK-TG

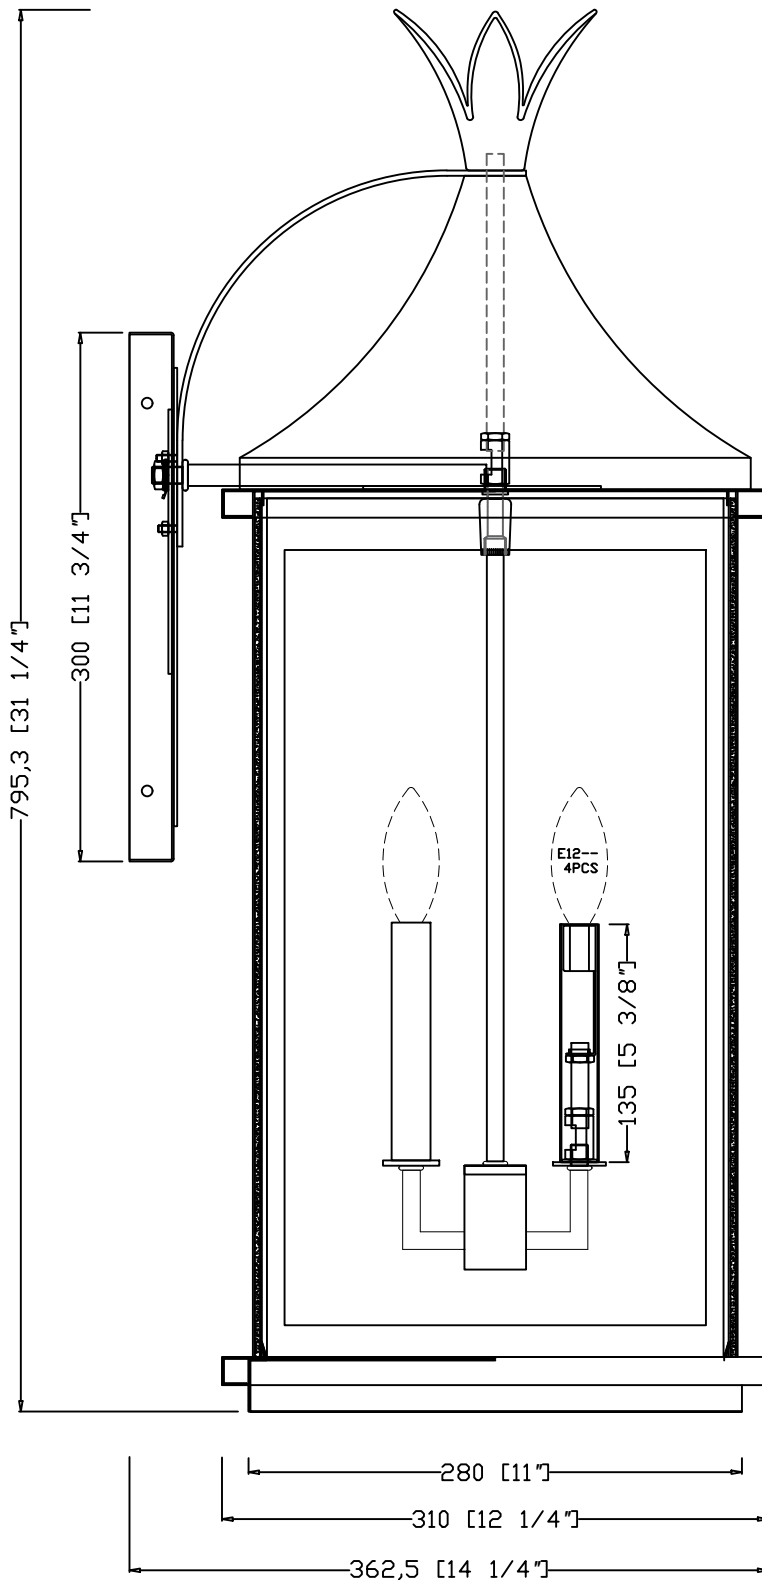

All electrical components must be installed by a licensed electrician in accordance with the National Electric Code and the appropriate local electrical codes.

You will need 4 – Cand.Bulb
40 Watts Recommended 60 Watts Max
USE LED BULBS FOR EXTENDED USE

THIS FIXTURE IS WET RATED

How to Install

- Loosen the back plate from the frame.
- If the outlet box is around the center of the mounting plate, Attach the mounting plate onto the outlet using the two outlet box screws directly.
- If the outlet box is far off the center of the mounting plate, please proceed with the following steps:
 - Place the mounting plate over the outlet box and mark 4 holes on the wall surface at the center of the hole on the mounting plate.
 - Drill the holes at the marked points and insert the wall anchors.
 - Place the mounting plate over the outlet box and secure with the anchor screws.
- Insert the glass panel from the bottom of the frame to allow the top of the glass to be seated inside the groove on the top of frame. Secure the glass with the clips on the bottom of the frame.
- Attach the back plate to the mounting plate using the machine screws.
- Install the bulb onto the socket.
- If the loop is preferred, please unscrew the decorative leaf finial and screw the loop onto the top of the frame.
