

PRODUCT KNOWLEDGE SHEET

Name: Sure and Secure™ Extra Tall Top-of-Stairs Gate with Alarm

Product #: 07030

Product Use: To create a secure barrier between rooms or at the top or the bottom of the stairs. Great for keeping children or pets contained in a safe area.

General Description:

The **Sure and Secure™ Extra Tall Top-of-Stairs Gate with Alarm** from Summer Infant is hardware-mounted and helps you create and maintain a secure environment for your child. It is especially suitable for the top or bottom of the stairs. It has special hardware that allows you to install it so the hinged swinging door opens only in one direction away from the stairs. The gate also features an alarmed latch that sounds if gate is opened by a child. Alarm also has a parent override button that provides a 10 second delay for easy passage. The easy to use one handed latch is convenient if your hands are full. Gate door also swings closed automatically. The gate is fully adjustable to fit openings from 28" to 54" wide and mounts extra tall at 36" to make it more difficult to climb or step over. Child resistant latch keeps gate secure. Even works in doorways with baseboards.

Instruction booklet and installation template included.

- Features:**
- Hardware mounted metal gate
 - Audible alarm sounds if gate is opened by a child or if the gate is not completely closed; includes parent override button for easy passage without activating the alarm
 - Swings open in one direction for stairway installation
 - Swings open in both directions for other installations
 - Door swings closed and locks automatically
 - Simple one-handed operation
 - Can be mounted at the top or bottom of the stairs
 - Fully adjustable to fit openings 28" to 54" (71 cm to 137 cm)
 - 36" (91 cm) tall when installed
 - Great room barrier for pets
 - Metal construction for security and durability
 - Includes 2 panels so no extra purchase necessary
 - JPMA certified
 - Works in openings with baseboards
 - Template included for easy installation
