Remote control installation

Remote control holder installation 1:

1. Drill two 6mm diameter holes in the wall at a distance of about 130.7mm, a depth of about 35mm.
2. Remove the double-sided adhesive tape on the back of the holder.
3. Install an anchor in each of the holes, stick the holder to the wall and secure with screws and then stick the patch with tape.

Remote control holder installation 2:

1. Clean and dry the pre-installation area of the holder.
2. Remove the double-sided adhesive tape on the back of the holder.
3. Stick the holder to the wall horizontally and then stick the patch with tape.

Battery installation:

1. Insert batteries into the remote control.
2. Put the remote control to the holder.

Notice:

1. Please ensure the remote control is within reach when a person on the seat.
2. Do not install and use the product in damp places such as a shower room.
3. Do not place the product in a place where it is easily exposed to water.

② Press and hold "  " button, then press "  " button, the indicator light will flash.

③ Re-connect the power plug and press "reset" button.

④ The indicator stops flashing and stays on for 2 seconds, indicating that the remote control and the toilet are matched successfully. It beeps once when the self-inspection completes. Then the remote control is ready for use.

Other operations

Quiet mode

- Press and hold the " ■ " button and press the "  " button to turn on/off quiet mode.

Sterilization function

- When no one seated and washing/drying is off, long press "  " button to turn on plasma sterilization function. This function will stop automatically after 2 hours. Under this mode, if any other button is pressed or user is seated, it will stop automatically.

Automatic pre-wetting function

- Press and hold " ■ " button and press "  " button to turn on or off automatic pre-wetting function. After the automatic pre-wetting function is turned on, the pre-wetting function will be performed when the user is detected to be seated.

Foot sensor function

- Long press "  " button to turn on/off foot sensor function. Foot sensor is deactivated when the user is seated.

Remark:

- The buzzer will "BEEP" once when the user presses one button indicating that the main unit receives the signal and conduct the operation accordingly. If the buzzer doesn't sound, it means the main unit doesn't receive the signal, please adjust the remote control direction and repress the button.
- In case of power cut during nozzle spraying, the wand cannot be retracted, please wait until the power is restored. In case of a power cut for a long period, please push the wand softly back by hand. Do not push hard, to avoid damage to wand and electrical machine.

The picture of product may not entirely consistent with actual appearance and color because of product improvements, please in kind prevail.
