Installation Instruction:

It is recommended you install our sun shade sail as shown in the picture, which not only can provide better shade, also make water run off easily to prevent ponding at the top.

**Features**

- Made of 185 GSM HDPE material(high density polyethylene), the sun shading sail features good UV protection, can effectively stop heat and resist water.
- Specially designed to make water run off easily during precipitation, no ponding at the top. Can reach a lifespan of 5-10 years under normal use and weather.
- All edges are constructed with heavy duty reinforced stitched seams, each corner ends with strong stainless steel D-ring and PE ropes for easy hanging.
- Widely applicable to patio, lawn, garden, beach, swimming pool, sandbox, deck, etc. Block 95% of harmful UV, significantly lower the temperature in shaded area, allow you to enjoy the coolness and composure in summer.
- Easy to clean with water and mild detergent. Colorfast, tear resistant, mildew and stain resistant.
