

Installation Products and Accessories

Used to cover expansion space next to baseboards, case goods and stair steps.

1. Quarter Round is to be installed after completion of the flooring installation.
2. Do not force Quarter-Round against the floor.
3. Attach Quarter Round to the wall, not the floor, with (6d finish nails) or construction adhesive. This will assure that expansion space is not restricted.
4. Always predrill the Quarter Round pieces with the appropriate size drill bit to avoid cracking or splitting.
