Construction

Remodeling

**Heat
Resistant**

Guide

CONTACT ADHESIVES – All-purpose adhesives for a wide range of applications and substrates

SPECIALTY ADHESIVES – Adhesives designed for specific substrates and repairs

CONTACT CEMENT – Yields a high-strength bond on a variety of applications. Ideal for laminating countertops and wood veneers

WOOD GLUE – Specifically-formulated adhesive for wood repairs and projects

SPRAYS – Able to evenly cover larger surfaces and available in different formulas

EPOXY *IDEAL FOR DURABLE REPAIRS & GAP FILLING*

Why Use Epoxy?

- Epoxies are two-part adhesives consisting of an epoxy resin and a hardener, combined to create a tremendously strong bond
- Wide range of dispensing options and technologies, ensuring the right product for your repair or project
- Ideal for medium repairs that require a strong and rigid permanent bond

Common Projects

Fix Splintered Wood

Fill Gaps

Repair Metal

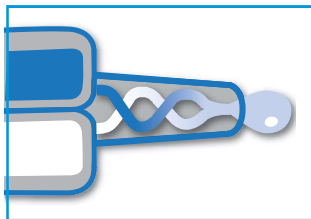

Anchor Bolts

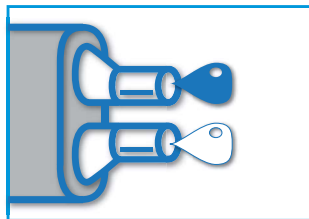

Repair Chipped Brick

Guide
