

PRODUCT KNOWLEDGE SHEET

Name: Sure and Secure™ Deluxe Wood Walk-Thru Gate

Product #: 07050

Product Use: To create a secure barrier between rooms. Great for keeping children or pets contained in a safe area.

General Description:

The **Sure and Secure™ Deluxe Wood Walk-Thru Gate** from Summer Infant is pressure-mounted and helps you create and maintain a secure environment for your child. It has a hinged swinging door that opens easily in either direction with one hand. It also swings closed automatically. The gate is fully adjustable to fit openings from 29.5" to 40.5" wide and mounts 29" tall. Child resistant latch keeps gate secure. High quality furniture grade hardwood is easy to maintain and complements any home décor. Pressure mounting eliminates mounting holes in woodwork and walls. Even works in doorways with baseboards.

Instruction booklet and installation template included.

- Features:**
- Pressure mounted
 - Convenient walk-through, auto-closing door
 - Simple one-handed operation
 - Furniture grade hardwood
 - Fully adjustable to fit openings 29.5" to 40.5" (75 cm to 103 cm)
 - 29" (74 cm) tall when installed
 - Great room barrier for pets
 - Wood construction for security and durability
 - Includes 2 extensions so no extra purchase necessary
 - JPMA certified
 - Works in openings with baseboards
 - Template included for easy installation

Age Grade: Birth and Up

Manufactured: In China

Installation: Consumers should plan on about a 20 minutes for proper installation of a pressure mounted gate. If wall cups are used, installation will take approximately 30 minutes. A template is provided in the packaging to make the installation as easy as possible. Please refer to the instruction book for details.

Helpful Hints: When you unpack the gate, you will notice it is NOT square. This is normal and not damage to the gate. It is manufactured at a pre-set angle so that when it is installed in an opening properly, it will maintain the correct amount of tension and cannot be pushed out of the opening under normal use. The 4 tension bolts, with adjusting knobs, simply slide into the gate frame; they do NOT screw into place. To create tension against the walls of the opening, turn the knob on each tension bolt with the wrench provided until the gate is snug.
