

SoftSeal® N95 3D Respirators

SOFTSEAL® RESPIRATOR

- NIOSH N95 approved.
- Unique patented design with a full 360° silicone seal for the perfect fit, protection and comfort.
- Crush proof layer prevents mask collapse.
- Stays sealed while you work, breathe and speak.
- Available with and without CoolTech Valve.
- Dual, adjustable tensioning head straps that are ultrasonically welded with no staples. Adjustable nose clip.
- **Available in 3 sizes:** XL, L, M.
- Fluid and Flame resistant, good for welding.
- **Fine Particulate Filters:**
 - ≥ 99% BFE @ 3 Micron
 - ≥ 99% PFE @ 0.1 Micron
 - ≥ 95% NaCl @ 0.3 Micron
- Contains no natural latex.
- Used anywhere that N95 Respirators are required (e.g., filtering 0.3 Micron particles) and when higher protection is needed against airborne viruses and TB.
- Ideal for working with dry walling, wood sanding and cutting, gardening, fiberglass insulation, agricultural grain and hay dust, fertilizing, and protection against mold, pollen, and pet dander.
