PENNINGTON® GRASS SEED

IS KENTUCKY 31 THE RIGHT SEED FOR YOUR LAWN?

Pennington® Kentucky 31 Tall Fescue helped revolutionize the grass seed industry. This durable, heat-tolerant variety was an early leader in putting low-maintenance, disease-resistant lawns within the average homeowner's reach. Decades later, this economical, traditional tall fescue grass remains an industry standard for cool-season lawn grasses.

FEATURED CHARACTERISTICS OF KENTUCKY 31				IDEAL FOR NEW LAWNS OR OVERSEEDING
sun requirement 4-8 HOURS	planting depth 1/4"	see results in 8-21 DAYS	mowing height 3"	
SUN TOLERANCE 	SHADE TOLERANCE 	DROUGHT TOLERANCE 	DISEASE RESISTANCE 	TRAFFIC RESISTANCE
VERY GOOD	GOOD	GOOD	GOOD	GOOD

WHERE WILL THIS SEED GROW BEST?

■ Grows best in highlighted area

WHEN SHOULD THE SEED BE PLANTED?

Early Spring or early Fall

HOW MUCH SEED SHOULD BE USED?

Bare Spots/New Lawns
12 lbs / 1,000 sq ft
Overseeding
5 lbs / 1,000 sq ft

4 EASY STEPS FOLLOW THESE INSTRUCTIONS TO WOW YOUR NEIGHBORS

EN CUATRO PASOS SENCILLOS: Siga estas instrucciones para impresionar a sus vecinos

STEP 1

NEW LAWNS

OVERSEEDING

PREPARE

FOR BARE SPOTS/NEW LAWNS:
Remove debris, then rake the soil to loosen and smooth the top layer.
PARA ZONAS CON HUECOS O CÉSPED NUEVO: Retire los desechos y luego rastille la tierra para aflojar y suavizar la capa superior.

FOR OVERSEEDING/THIN AREAS:
Start by mowing existing grass as short as possible followed by removing debris. Then rake the soil to loosen and smooth the top layer.
PARA RESEMBRA O ZONAS DELGADAS: Corte el césped existente lo mas corto sea posible y elimine los desechos. Luego, rastille la tierra para aflojar y suavizar la capa superior.

STEP 2

APPLY FERTILIZER

Apply a starter fertilizer at the manufacturer's recommended rate.
APLICACIÓN: Aplique la cantidad de fertilizante recomendada por el fabricante.

STEP 3

APPLY SEED

Spread the seed evenly using a drop, rotary or hand-held spreader according to the recommended spreader settings listed. Rake gently to work your seed & fertilizer into the soil.
APLICACIÓN: Disemine las semillas de manera uniforme con un esparcidor de caída, rotativo o manual, de acuerdo con las configuraciones recomendadas y enumeradas del esparcidor. Rastille suavemente para que las semillas y el fertilizante germinen en la tierra.

STEP 4

WATER

Keep the soil moist by watering daily as needed until grass sprouts and reaches about 3" tall.
RIEGUE: Mantenga la tierra húmeda al regar lo que sea necesario por día hasta que el césped crezca y alcance alrededor de 3 pulgadas (7,62 cm) de alto.

ADDITIONAL CARE TIPS

- 1** Mow lawn when grass height reaches 3" tall
- 2** Avoid removing more than 1/3 of the total grass blade length in any single mowing
- 3** Hot summers can be stressful on your lawn; increase the mowing height during hot and dry periods to reduce stress on your lawn

MOST IMPORTANTLY - Don't kill the grass before it starts by using weed control (pros call it preemergent) on your lawn until your grass has reached its full mowing height of 3"

RECOMMENDED SPREADER SETTINGS

SPREADER TYPE	OVERSEEDING/ THIN AREAS	BARE SPOTS/ NEW LAWNS
Expert Gardener™ Push Seed Spreader	15	15"
Scotts® Turf Builder® EdgeGuard® Mini Broadcast Spreader	15	15"
Scotts® Whirl® Hand-Held Spreader	5	N/A
Sta-Green® 32-lb Broadcast Spreader	14	15"
