

CARE TIPS AND GENERAL INFO FOR:

SENECIO

EXPOSURE:

PARTIAL SHADE - FULL SUN

BLOOMTIME:

While Senecios will bloom later in the season, they are traditionally grown for their unique foliage.

WATERING NEEDS:

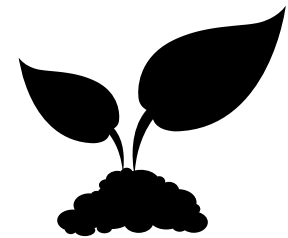

Senecio prefers soil to be on the dryer side. 1-2x/week is ideal. Make sure soil dries between watering.

FERTILIZER:

Use a water soluble type fertilizer twice a month.

SOIL TYPE:

SANDY SOIL TYPES
