

20 in. 50-Watt Post Top Area Light (Small)

PRODUCT DESCRIPTION

The Post Top Area Light provides powerful illumination while maintaining exceptional energy efficiency. Featuring CCT selectability, users can adjust the color temperature to match different environments, enhancing versatility across various settings. Ideal for commercial applications such as lawns, parks, parking lots, courtyards, roadways and many other applications, this versatile lamp enhances both security and aesthetic appeal. Its design ensures broad coverage with a 120-degree downward-directed light, maximizing efficiency and offering an Eco-friendly lighting solution.
