ALC®

2K VIDEO
Web Camera
Model AWC10

Quick Start Guide

Getting Started

Web camera with built-in
USB cable & privacy shutter
and attached monitor mount
Flexible Tripod
Stand

Quick Start
Guide

Easy Installation

1 Plug the cable from the back of the camera into the USB port of your laptop, or monitor.

USB 2.0 connection

2 Place front monitor mount on front edge of monitor, or laptop screen.

Then, adjust monitor mount backing as needed to angle of monitor. Once positioned in place, the **soft pad** should rest against your monitor.

---

3 **Plug & Play Installation**

No need for software drivers or additional software installation, your web camera supports all UVC standards, it will run by itself automatically. (Compatible with Mac OS 10.10 and higher, Windows 7, 8, 10, Chrome and Android)
NOTE: On certain applications you might have to select camera. If asked, choose the following: "*UVC Camera*". Then, your web cam should work automatically.

4 **Flexible Tripod**

On the bottom of the monitor mount is a *1/4"-20 standard tripod threaded hole.*

Fold monitor mount flat against webcam.

Then, screw tripod stand into threaded hole in clockwise direction.
