LIMITED GROWTH & FLOWERING GUARANTEE

Garden State Bulb Co. (GSB) products have been grown with the utmost care and are of excellent quality. In order to obtain the desired end result, it is important that the instructions on our site and/or the accompanying (plant) instructions are followed. Given that we work with a natural product; we offer a 1 Year Limited Growth and Flowering Guarantee.

Garden State Bulb's obligation under this Guarantee is limited to troubleshooting, replacing the product, missing pieces or providing a gift certificate at Garden State Bulb's discretion. All products for which a Guarantee claim is made must be received by GSB and accompanied by sufficient proof of purchase (emailed or original physical store receipt, indicating the date of purchase).

This Guarantee does NOT cover improper handling, storing, weathering, failure to follow directions, improper care, improper maintenance, or acts of nature, (such as damage caused by wind, lightning, snow, water, or ice), or damage caused by improper use of the products are not covered by the product warranty. No other guarantee beyond that specifically set forth above is authorized by Garden State Bulb Co.

SPACING 8'-10' apart

DEPTH Plant crown 1" deep

MATURE HEIGHT 8' to 12' tall

BENEFITS Deer Resistant

Soil Preparation

Great gardens start with great soil!
Soil preparation is essential for successful gardening.

Healthy soil should have good tilth, nutrient content, and a viable population of beneficial microorganisms. We recommend using natural and organic ingredients to prepare the soil and maintain soil fertility. It is always a good idea to have a soil test to identify your soil type (sandy, loam, silt, clay) and find out your soil pH.

NOTE: It is important to store correctly until planting. Store in a cool, dry place with plenty of air circulation. Plant in spring as soon as ground has thawed and soil has warmed to 50°F and is workable. Usually 4-6 weeks after the last frost.

Lilac Planting Instructions

- 1 Plant lilacs in the spring after the ground has thawed and there is no longer danger of frost.
- 2 Choose a location with well-drained soil that receives full sun. Loosen soil prior to planting.
- 3 Remove plant from packaging and lightly loosen the bottom of the root ball to release the roots. Dig a hole in loosened soil as deep as the roots and about twice as wide. Be sure the hole is large enough to encompass the roots without bending them.
- 4 Place plant in hole with the roots down and the crown/top of the roots about 1" below soil surface. Space plants 8-10' apart.
- 5 Cover with soil and water well so that the soil settles. Keep soil moist during periods of dry weather but do not overwater.

About Lilacs

Garden State Bulb Common Lilac Bare Roots come directly from our farms and growers in the US. When planted, Lilacs are a fragrant shrub with lavender flower clusters that will fill your garden with sweet fragrance for weeks! These beauties also grow up to 15 feet tall, making them a perfect focal point or privacy barrier for any entryway or garden! Please note, lilac plants need time to grow before they start flowering. Most plants will start blooming after 2 years, but some may take as long as 3 to 4 years to reach maturity.

FREQUENTLY ASKED QUESTIONS

Q. Where should you plant lilacs to grow best?

A. Plant lilacs in a sunny location that receives 6-8 hours of sunlight a day with moist, well drained soil.

Q. What other flowers can you plant with lilacs?

A. Peonies, hostas, magnolias and clematis all combine well with lilacs.

Q. How long do Common Purple Lilacs bloom?

A. Common Purple Lilacs bloom for about 2 weeks.
