

INSTALLATION INSTRUCTIONS

Turn off electrical power before starting installation of light fixture.

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

1. The cord must be through all accessories in the same order, from down to up; metal holder, canopy then bracket bar with nipple.

2. Do a little knot at the end of the cord.

3. Attach the two conductors respectively; white with white and black with black. Then attach the ground wire with the respective green screw.

4. Make sure all conductors are inside the outlet box. Set the bracket bar with the outlet box, using the two bracket's screws.

5. Hold the cord and push the canopy up until the outlet box is covered up then twist the metal holder with nipple. And all set!

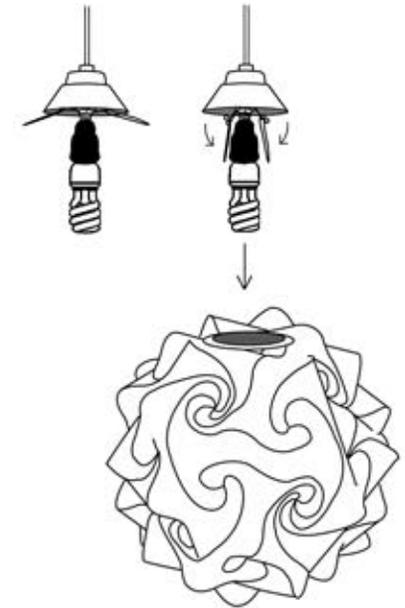

CAUTION: Minimum cord length between the canopy and luminaire
