Hardware Usage Guide

HOWTO USE A CAM LOCK & CAM BOLT OR CAM DOWEL

1. NOTE: CAM BOLT or a CAM LOCK may be used.

Turn the CAM BOLT until the shoulder is against the surface of the part.

2.

Push a HIDDEN CAM into the part. The arrow in the HIDDEN CAM must point toward the hole in the edge of the board.

3. Insert the CAM SCREW or CAM DOWEL into the HIDDEN CAM.
Tighten the HIDDEN CAM.

4. The provided glue is to secure wood dowels in place. When first inserting dowels, locate the appropriate hole for the dowel, place a small amount of glue in the hole and insert the dowel. Wipe away excess glue immediately.

In future assembly steps when dowels are necessary to attach assembly parts together, place a small amount of glue on the end of the dowel before attaching parts together. Wipe away excess glue immediately.

Hardware List

- Carefully remove all the parts from the carton and place them individually on a softcloth to prevent scratches or other damage.
- Carefully and strictly follow these assembly&installation instructions to ensure acompleted product as designed.
- Do not tighten all the screws until each part is properly assembled.
