

CORDLESS CSF: COIL SIDING & FENCING FAQs

1. Will the current Paslode Li-ion battery and charger work with the CSF Nailer?

Yes, the battery/charger interface remains the same for the CSF nailer.

2. Can I buy the 0 Degree Plastic coil nails and Fuel separately?

The Cordless Coil Fuel can only be purchased through the ***Fuel + Nail Packs***. Not only is this convenient in ensuring you have the right number of nails for the number of fuel cells but using Paslode's Premium 0 Degree Plastic coil nails with the Cordless CSF is the best way to optimize performance.

3. Is the new CSF nailer made in the USA?

The new nailer is assembled at our ITW facility in Libertyville, IL. Our tool engineering group and technical support team work right next to the assembly facility to help design our tools and serve our customers/users.

4. Does this tool have rapid fire actuation mode?

No, the Cordless CSF is only able to be fired in single-fire, or sequential, mode.

5. Does the tool come with a battery?

Yes, this tool is sold in a resin case with (1) charger, (1) battery, and (1) pair of safety glasses
