Installation Step 1

1. Use a hanging board to determine the position to be punched on the cement ceiling.
2. Punch holes in the ceiling according to the size of the into-wall rubber plug, and then knock the rubber plug into the ceiling hole.
3. Lock the hanging board to the ceiling with self-tapping screws.

Installation Step 2

1. Install all antler horns part on the disc (as Figure 1 showed), and tighten them with nuts.
2. Install all the antler horns part on the round lamp base and tighten them with nuts (as Figure 2 showed).
3. As shown in Figure 3, Connect the antler wire with the main wire according to the correct polarity, and tighten it clockwise with the wiring cap.

4. Cover the round lamp base cover on the lamp base surface as shown in the figure and tighten it with base bottom decoration part, and then screw the hanging rod to the round lamp base.

5. Connect the main wire to the ceiling power line according to the correct polarity, tighten it clockwise with the wiring cap, lift the hanging bell to make it stick to the ceiling, and then tighten it with the hanging ring nut.

6. Attach the hanging chain to the hanging ring nut.
