

# ASSEMBLY AND INSTALLATION INSTRUCTIONS

**WARNING:** TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

## Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

## Step-by-Step Installation:

Step A. Thread the light arms (1) through the corresponding holes on the canopy (2), and secure them by tightening the nuts (3).

Step B. Wiring Connections of the Light Arms.

- Connect black (hot) wire from arm (4) to black (hot) main wire (5) using wire connector (6).
- Connect white (neutral) wire from arm (4) to white (neutral) main wire (5) using wire connector (6).
- Ensure no bare wires are exposed to prevent leakage.

Step C. Secure the mounting plate (8) to the junction box with screws (7).

Step D. Main Wiring Connections:

- Use wire connectors (9) to connect the main back (hot), white (neutral) wires (5) to the corresponding wires on the junction box.
- Use the green screw (10) to connect the ground wire (11) of the lamp fixture and the external ground wire.
- Ensure no exposed conductors remain outside wire connectors or outside the junction box.

Step E. Thread the mounting studs (12) through the two holes on the canopy (2), and then secure the fixture by tightening the decorative nuts (13).

Step F. Install the light bulbs (14) into the light holders (15) as indicated, and test illumination after restoring power. (Bulbs Not Included)

Step G. Compress the spring clips (16), and fit the glass shades (17) onto the spring clips to secure the shades.

## Safety Instructions:

**To avoid fire, shock, and serious personal injury, follow all instructions carefully.**

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
